

DVD-R145

Full Multi Hi-Def Conversion DVD Recorder

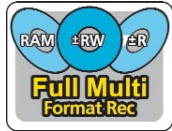

This elegant Full Multi DVD Recorder offers the flexibility of Full Multi Format Recording, plus the practicality of Dual Layer Recording. Archiving family movies from to DVD is easy using the front DV input; and TV programs can immediately be captured with the "1 sec." Quick Recording feature. When playing back the resulting DVD, you'll enjoy Samsung's crisp 1080i/720p HDMI™ output, as well as the clarity of Enhanced Video Quality and DivX (EG-4) technology. Time Slip Recording (DVD-RAM) allows you to watch a show while recording it; stop the action, then resume watching where you left off. And Chapter Creator catalogs separate recorded scenes, so you can easily jump to the desired part.

- Full multi recording (RAM,±R,±RW)
- +/-R dual layer recording capability
- Time Slip Recording (DVD-RAM) pause live TV

- Auto chapter creator
- Quick startup recording
- Ultra slim 1.8" design
- Timer recording
- Auto clock set
- Remote control (DVDR/TV)

DVD recorders

DVD-R145 Full Multi DVD Recorder

Full Multi Format

record & play any DVD

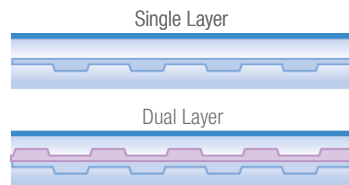

Samsung's Full Multi Format DVD recorders work with any type of disc you choose, recording on DVD-RAM/-RW/-R/+RW/+R. You never need to worry about the recording or playback format because Samsung's Full Multi Format DVD Recorder does it all.

Dual Layer Recording (DVD+/-R)

double your recording time

Samsung's DVD Recorders are the world's first to let you record on both +R and -R Dual Layer discs. A single dual-layer DVD disc can hold more than 14 hours of programming—so you can archive whole seasons of your favorite TV shows on one disc!

Mode	Recording time	
	4.7GB (Single Layer)	8.5GB (Dual Layer)
XP	1 hr	1.8 hr
SP	2 hr	3.6 hr
LP	4 hr	7.24 hr
EP	8 hr	14.4 hr

HDMI™ Output (1080i/720p)

best picture quality

HDMI (High Definition Multimedia Interface) transfers hi-definition (1080i/720p) video and audio from your DVD Recorder to your TV, Home Theater, or other digital AV components. Simply connect your DVD Recorder to your Home Theater System with a single HDMI cable for the high quality pictures and sound.

Single connection available

EVQ (Enhanced Video Quality)

crisper, more life-like pictures

EVQ lets you enjoy enhanced picture quality on your TV. The sharper images and truer color reproduction provide an improved viewing experience for movies and home videos.

DVD-R145

Cable Box Control

⇒ one makes it all

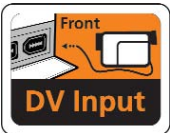

The Cable Box Control on Samsung's DVD Recorders makes timer recording simple. The user-friendly feature turns on your Cable Box and changes channels to record at a preset time. Start recording with only one remote control. Just set your Samsung's DVD Recorder.

Chapter Creator

⇒ quick disc searching

The chaptering feature in Samsung's DVD Recorders creates chapters when you record your favorite TV shows or video clips from a camcorder or VCR onto a DVD—so you won't waste time searching the whole DVD to get to the right spot.

DV Input

⇒ high-quality video copying

The DV input on the front panel lets you edit and record from a digital camcorder directly to a DVD disc through a single cable—without losing image quality. Simply connect your camcorder to your DVD recorder via a DV cable (IEEE1394). It couldn't be simpler to archive your precious video footage to disc.

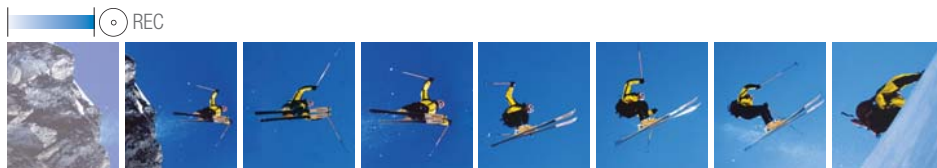

Quick Recording

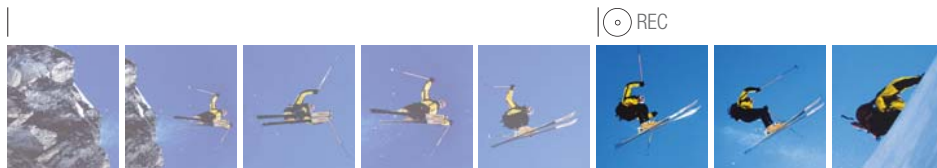

⇒ never miss a show

Don't waste even one second of your precious time waiting to record a program. After pressing the REC button, the time it takes to start recording is one little second. Never miss another scene.

With Quick Recording
Disc Loading time
1sec.

Without Quick Recording
Disc Loading time
10-15 sec.

DVD-R145

Full Multi Hi-Def Conversion DVD Recorder

Recorder

Full multi format recording works with any type of disc you choose, recording on DVD-RAM/-RW/-R/+RW/+R.

Dual layer recording lets you record on both +R and -R dual layer discs for more than 14 hours of programming.

Front DV input: The DV input on the front panel lets you edit and record from a digital camcorder directly onto a DVD disc through a single cable—without losing image quality.

HDMI (High-Definition Multimedia Interface) transfers hi-definition (1080i/720p) video and audio from your DVD Recorder to your TV, Home Theater, or other digital AV components. Simply connect your DVD Recorder to your Home Theater System with a single HDMI cable for the high quality pictures and sound.

EVQ (Enhanced Video Quality) lets you enjoy enhanced picture quality on your TV. The sharper images and truer color reproduction provide an improved viewing experience for movies and home videos.

Time slip recording (DVD-RAM): Record and playback from a disc at the same time. Pause and then continue watching where you left off—while the rest of the show is being recorded.

Cable box control turns on your cable box and changes channels to record at a preset time. Record with only one remote control.

Timer recording automatically starts and stops recording at time and date set by the user

Auto clock set automatically sets the month, day, year and time when the unit is connected to a cable or antenna and is turned off.

Ultra slim 1.8" design

Convenience

Auto chapter creator: Samsung's DVD recorders creates chapters when you record your favorite TV shows or video clips from a camcorder / VCR onto a DVD—so you won't waste time searching the whole DVD to get to the right spot!

Quick startup recording: After pressing the REC button, the time it takes to start recording is only a second.

DivX playback: Insert DVDs & CDs that have DivX movies downloaded via computer and enjoy watching them on the large-scale TV.

Warranty

1 year parts and 90 days labor warranty backed by Samsung toll-free support.
