ATRAC DIGITAL SOUND

Features

- **WMA(non-DRM) and AAC(non-DRM) Playback and Support**
3 Supports playback of unsecure WMA and AAC audio files imported from CD to your Sony Walkman Digital Music Player. Perfect for a customer who has a large collection of audio on their PC which was ripped from personal CDs. This allows for transfer of audio downloads, imports and self recorded tracks, but only works on files that are not protected by DRM (Digital Rights Management).
- **2GB¹ Built-In Memory** Store up to 1,350 songs² on the device.
- **Built-In FM Tuner** Provides accurate tuning of FM stereo radio stations. Presets allow the user to skip directly to the most listened to stations.
- **Quick Battery Charge** A three minute charge will provide up to 3 hours of playback.⁴
- **Up to 28 hours⁴ Playback Life** The internal, embedded Lithium-Ion battery provides up to 28 hours of continuous playback.
- **Compatible with Sony's Connect™ Music Store** Connect.com offers one of the most extensive music collections online. Unique features such as Connect Sets and live radio make this a choice destination for customers looking to expand their music collection. It's easy to find and purchase single tracks or entire albums ranging from top hits to independent artists.
- **Playsback MP3/ATRAC3®/ATRAC3plus™ Audio Formats** For customers who already have an extensive music library, use the included software and hardware to store and playback their collection of MP3s. For the customer who is just getting into the world of digital music, Sony's ATRAC® format provides higher sound quality and smaller file sizes than many competing formats. This enables the user to store more music at higher quality for longer listening.
- **1-Line OEL Display** Electroluminescence Display offers high quality and a unique look. View information about the music, settings and even time and date in any lighting condition.
- **Rotating Display** is designed to accommodate both left and right handed users for maximum flexibility.
- **Built-In USB Connector** Connects directly to your PC for charging and transferring information without the need for additional cables.
- **5 Mode Equalizer** Offers 5 different modes including: Heavy, Pop, Jazz, Custom and Off for enhanced sound.
- **SonicStage CP Music Management Software** Allows users to manage their music, create playlists, burn CDs, import digital files and easily transfer music to their Walkman MP3 players.
- **USB 2.0 Compatible** USB (Universal Serial Bus) provides extremely fast and easy transfer of audio files from computer to hard drive and flash players.
- **Supports CD Text and ID3 Tagging** Allows you to easily view CD Text and ID3 Tag information including song title, album title and artist name.

Specifications

Weight: 0.90z (25g)

Measurements: 1 x 3.1 x 0.56" (24.8 x 79.0 x 13.6mm)

Supplied Accessories

MDR-E808LP Headphones

Sonic Stage 4.0 Software CD-ROM

Quick Start Guide

Color: Black, Green, Violet

1. User available memory = 2,035,974,144 bytes, a portion of which is used for data management functions.
2. Calculated on 4 minutes per song in ATRAC @ 48kbps.
3. Does not support secure WMA and AAC files purchased from other music services. Only playback unsecure WMA and AAC files ripped from CD.
4. Display must be in super power save mode when playing back in ATRAC3plus @ 132kbps, no equalizer.
5. Not all products with USB 2.0 connectors may communicate with each other due to chipset variations.
