Overview

Mitsubishi's 732 Series 1080p DLP® HDTVs feature Mitsubishi's 6-Color Light Engine and unique TurboLight150™ lamp system. These 57" and 65" 732 Series HDTVs produce big, bright and bold pictures with unsurpassed detail and vibrant colors. At their heart is a Mitsubishi exclusive 6-Color Light Engine, the first to offer 6-color processing. This proprietary Mitsubishi 1080p DLP® digital light engine features PerfectColor™ and PerfectTint™ to adjust the intensity and tint of each color independently and separately for each input. And Dark Detailer™ provides deep blacks and rich dark scene detail. The 732 Series gives the perfect picture, whether watching broadcast, cable or satellite TV, or for DVD and HD video games.

The stunning 732 Series picture is further enhanced by all-new digital signal processing system. Plush1080p® allows for precise deinterlacing and upconversion to 1080p. 4D Video Noise Reduction creates smooth yet detailed images. And Tru1080p™ processes the highest resolution HDTV signals in their native format.

The 732 models are Digital Cable Ready HDTVs with CableCARD™ slots, so digital cable channels can be viewed without a cable box. Both televisions have two HDMI™ inputs, three component video inputs and a DVI-I input for a digital PC connection. ClearThought® Easy Connect recognizes inputs as they are plugged in to simplify set up and day-to-day operation. And NetCommand® allows for simple icon based control of most any brand of Cable or Satellite set top box, AV Receiver or other home theater component.

Get the Perfect Picture Every Time

- 1080p DLP® Display
- Mitsubishi Exclusive 6-Color Light Engine
- TurboLight150™
- Dark Detailer™
- Plush1080p®
