

Lifestyle® 48 Series III

DVD HOME ENTERTAINMENT SYSTEM

PRODUCT POSITIONING:

Our most advanced Lifestyle® system ever. The Lifestyle® 48 Series III DVD home entertainment system features award-winning Jewel Cube® speakers so you can experience the full, emotional impact movies and music are meant to deliver. Contains a host of innovative Bose® technologies like 340 hours of digital music storage and the ability to customize its sound to your room. This system now features speakers that blend even more seamlessly into your décor. Introducing a smaller Acoustimass® module and new horizontal center channel speaker that better integrates with the latest flat-panel televisions.

KEY CUSTOMER BENEFITS:

- Thrilling home theater performance from award-winning Jewel Cube® speaker arrays.
- New, dedicated horizontal center channel integrates with today's flat panel displays.
- New, smaller Acoustimass® module produces powerful sound effects and hides more easily out of sight.
- Adjusts to the acoustics of your room.
- Digitally stores up to 340 hours of music.
- Expands easily so you can enjoy more music throughout your home.

| FEATURE | FUNCTION | BENEFIT |
|---|--|---|
| Lifestyle® integrated systems design | Every element is designed to work in harmony with the others - efficiently and simply. | Delivers performance and simplicity unmatched by conventional systems. |
| Updated Acoustimass® module with Bose® proprietary technology | Now 30% smaller size. Allows prodigious airflow at the lowest frequencies without port compression or other audible artifacts. | Smaller size enables the module to be hidden almost anywhere in the room, while the sound seems to come from the cube speakers. Delivers a reproduction of pure, deep low notes without audible distortion. |
| Integrated music storage system | Digitally stores and organizes up to 340 hours of music within the Lifestyle® media center. | Enables your music CDs to be organized inside the elegant media center and accessible at the touch of a button. Eliminates the need to alphabetize and stack your collection. |
| uMusic® intelligent playback system | The uMusic system is an intelligent technology that uses detailed information about your music combined with learning gained from your listening habits to create a unique music listening identity. | A better and easier way of managing your music. Becomes like a personal music valet that serves up the music you want when you want it. |

Lifestyle® 48 Series III

DVD HOME ENTERTAINMENT SYSTEM

| FEATURE | FUNCTION | BENEFIT |
|---|--|---|
| ADAPTiQ® audio calibration system | Bose® technology that automatically customizes the sound of the system to the room. | Allows greater freedom of speaker placement. Eliminates the need to adjust tonal controls for great sound. Ensures that every Lifestyle® DVD system delivers a quality Bose performance in almost any room. |
| Direct/Reflecting® speaker technology | Re-creates a natural blend of reflected and direct sound. | Delivers more open, spacious sound throughout the listening area. |
| Jewel Cube® speakers | Delivers mid and high frequencies from tiny speaker enclosures. | Design allows for speakers that are small enough to fit in the palm of your hand and blend elegantly into almost any décor. |
| Horizontal center channel | Fixed position of the drivers. Appropriately matches the aspect ratio of home theater video displays. | Proper angle of the drivers allows for more predictable performance. Matches the latest TVs and entertainment centers, blends with the living environment and delivers the same great Bose® sound. |
| Integrated DVD player with progressive scan technology | Provides access to the most popular content, including: DVD video, CD, CD-R, CD-RW, VCD, PCM, digital 5.1, MP3 files and MPEG-2. | Integrated A/V solution provides playback of today's most popular audio and video content. |
| Bose® Videostage® 5 decoding and postprocessing circuitry | Delivers a five-channel speaker performance regardless of the listening material. | Enables listening material including DVD, CD, VHS and even mono recordings to be played in surround sound. |
| Digital 5.1 decoding | Delivers five-plus-one discrete channels of audio from digital 5.1-encoded material, including DVD, Dolby® Digital, DTS®, DSS and HDTV. | Provides improved realism from 5.1-encoded DVDs, DSS or HDTV. |
| Proprietary integrated signal processing circuitry | Automatically adjusts tonal balance at lower listening levels. | Sound is rich and dialogue is clear at lower listening levels. |
| Control integration <ul style="list-style-type: none"> • Universal radio frequency remote • TV sensor | Lifestyle® systems radio frequency remote control operates popular functions on other IR-receiving equipment in the home entertainment system: TV, VCR, cable box, satellite receiver, personal video recorders and CD changers. Now includes better control integration with DVR. | <p>Allows one easy-to-use remote to control the entire home entertainment system.</p> <p>TV sensor makes turning on the home entertainment system a one-button operation.</p> |

Lifestyle® 48 Series III

DVD HOME ENTERTAINMENT SYSTEM

| FEATURE | FUNCTION | BENEFIT |
|---|--|--|
| Bose® link • Multi-room expansion with dual-stream audio | Allows seamless hookup to Bose speaker solutions and systems for homewide options. Provides expandability with multi-source/multi-room capability (14 additional rooms maximum). | Enables Lifestyle® systems to integrate with other Bose® link-enabled products to provide sound and basic control functions in secondary rooms in the home, including outdoors. Allows two different sources to be playing in two different areas of the home at the same time. Allows 15 different rooms to have independent volume and mute control. |
