

This is a preview of your product details as it will appear on the Fisher & Paykel website. Unless you have specified a publish date, these details will be live when you click on the "publish" button.

Therefore please check these details thoroughly.

Intuitive Eco IWL16

A machine so intelligent that it senses the average fabric mix of the load and creates the optimum wash cycle based on what it 'feels'. With sophisticated electronics and a revolutionary direct drive motor, Fisher & Paykel Intuitive Eco is born out of 70 years of laundry innovation.

Specifications	
Model	IWL16
