Core messaging and key visuals

Samsung Home Theater: Captivating entertainment

Technology that offers true multimedia thrills

WiFi Ready
Wirelessly access pictures and music from your computer (Samsung wireless LAN adaptor not included), and stream Netflix and Pandora straight to your Home Theater System (wireless router required, subscription additional for Netflix).

PC Connected
Organize all your media files on your PC, and access digital content from your computer to your Home Theater System.

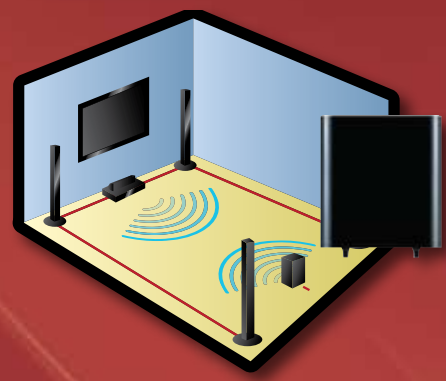

Made for iPod
Works with iPhone

Compatible with Apple Products
Samsung's Home Theater System is designed to work seamlessly with popular iPod® and iPhone® models.

Versatile design that makes setup a snap

Wireless Rear Speakers
Get incredible full-room audio, minus the hassle and tangle of unsightly wires, which allows a clean, space-saving look.

Wireless Subwoofer
Enjoy thundering bass virtually anywhere you want it – the wireless subwoofer offers a neat and easy setup.

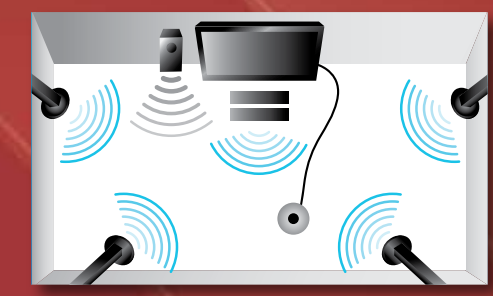

Dual Mounting Speaker System
Set up speakers one of two ways – on the base, or hang on the wall – for great performance that also gives you more flexibility.

From music to movies, brilliant audio quality

Crystal Amplifier
Samsung's new feedback circuit technology eliminates any noise or interference for pure audio performance.

Auto Sound Calibration
At the push of your remote's button, our Home Theater System automatically adjusts all settings for optimized sound.

An environmentally friendly home theater system

Bio Kelp Speakers
Innovative kelp-fiber speaker cones are eco-friendly, while delivering outstanding full-range sound quality.

ENERGY STAR® Compliant
Samsung's Home Theater System components comply with strict ENERGY STAR standards.
