

i960 Photo Printer

The Digital Photographer's Choice.

- Maximum 4800 x 1200 dpi with microscopic 2 picoliter droplets
- 3,072 nozzles for fast edge-to-edge borderless photos (4 x 6, 5 x 7 and 8.5 x 11 in.)
- Direct photo printing from compatible digital cameras & camcorders
- 4" x 6" dual paper feed
- 6 individual ink tanks can save you money

Exceptional photo performance.

The Canon i960 Photo Printer offers digital photographers the superior performance, high speed and superb quality that complements the capabilities of higher-end digital cameras. Canon advanced MicroFine Droplet Technology™ features 3,072 precisely machined nozzles ejecting consistent prescribed-volume droplets in a microscopic, 2 picoliter size, for ultra-fine, ultra-fast printing. Example? You can produce a stunning edge-to-edge 4" x 6" borderless print with the look and feel of a traditional photograph in approximately 37 seconds* The i960 Photo Printer achieves a maximum resolution of 4800 x 1200 dpi** for breathtaking detail and color fidelity, with over 5.7 million droplets per inch. To help reduce ink waste, the Canon Think Tank System™ was developed featuring six individual ink tanks coupled with an intelligent ink management system. You'll replace only the color that runs out, rather than the entire cartridge—a real cost advantage when printing high-intensity color photos*** A USB 2.0 Hi-Speed† interface enables super-fast photo transfers from your computer.

Advanced photo printing.

With direct photo printing, you can print without a computer. Simply connect any Bubble Jet Direct†† or PictBridge-compatible†† digital camera or camcorder to the convenient front-panel Direct Print Port, and print! You can choose standard 4" x 6" prints or enlarge your favorite photos to either 5" x 7" or 8.5" x 11"—perfect for framing. The included 4" x 6" photo paper tray attaches to the auto sheet feeder, so you'll always have your choice of paper ready for printing.

Vivid Photo and Red-Eye Reduction Technology.

The included Easy-PhotoPrint Plus††† software, an Exif Print 2.2 compatible application, makes it simple to print stunning digital photos. It faithfully reproduces the colors digitally captured, while improving image quality by virtually eliminating "Photo Noise" and boosting color saturation with "Vivid Photo" driver enhancements. To further enhance your photos, Canon has developed additional software technology designed to reduce red-eye problems and smooth out facial imperfections. The result: more amazing looking photos that you can't wait to share.

* 4" x 6" photo print speed based on default printer driver mode using Canon Photo Paper Pro. Print speed will vary based on system configuration, software, document complexity, print mode and page coverage.

** Resolution may vary based on printer driver setting. Ink droplets can be placed with a minimum pitch of 1/4800 inch.

*** Will vary based on composition of images/documents printed.

† USB 2.0 Hi-Speed requires Windows® XP (Service Pack version 1) or Windows 2000 (Service Pack version 3).

†† For a listing of select Canon digital cameras and camcorders featuring BubbleJet Direct or PictBridge direct printing technology, visit www.usa.canon.com/consumer/directprint. To determine if a non-Canon brand camera or camcorder is PictBridge-compatible please consult the manufacturer.

††† Easy-PhotoPrint Plus is not supported on Mac OS 8.6, Windows® 95 or Windows NT® 4.0.

Technical Information*

Color Photo Print Speed**	4" x 6" Borderless—approximately 37 seconds 8" x 10"—approximately 1 minute
Number of Nozzles	3,072 nozzles (512 x 6 colors)
Print Resolution (up to)	4800 x 1200 dpi***
OS Compatibility†	Windows® XP, Windows 2000/Me/98, Mac® OS (8.6 to 9.x) and Mac OS X v 10.2.1 to 10.2.x
