

DVD-HD870

High Definition Conversion DVD Player

An HDTV or a High-Def TV requires a DVD player that can deliver equally breathtaking visuals and sound. Samsung's DVD-HD870 can take conventional video and audio signals and up-convert them to breathtaking 720p/1080i quality. Through HDMI™ (High Definition Multimedia Interface) Output technology, this DVD Player can also transfer hi-def video and audio to the HDTV without any loss in detail. Playback is amazingly clear with true color reproduction, thanks to Samsung's EVQ (Enhanced Video Quality). Just 1.8" in height, it fits neatly into any size home theater system.

- HDMI selectable output (720p/1080i)
- Progressive scan
- DivX
- Playable formats: DVD Video, DVD-R, DVD+R, DVD+RW, CD-R/RW, MP3, MPEG4, WMA, JPEG

DVD-HD870

High Definition Conversion DVD Player

Player

HDMI (High-Definition Multimedia Interface) transfers hi-definition (1080i/720p) video and audio from your DVD Player to your TV, Home Theater, or other digital AV components. Simply connect your DVD Player to your Home Theater System with a single cable for the high quality pictures and sound.

Hi-Def conversion DVD player up-converts the resolution of ordinary DVDs to 1080i/720p high-definition.

Progressive scan output scans individual picture lines in sequence rather than alternately, maximizing the clarity of digital images and bringing new realism to your DVD viewing experience.

EZ View Letter Box Eliminator enables the elimination of the black letterbox bars of 4:3 TV screens with the push of a button on the remote control

Moving zoom

Super scan playback

Instant skip

Instant replay

MP3, JPEG, WMA Playback capability via DVD

DivX playback: Insert DVDs & CDs that have DivX movies downloaded via computer and enjoy watching them on a large-scale TV.

Playable formats: DVD video, DVD-R, DVD+R, DVD+RW, CD-R/RW, MP3, MPEG4, WMA, JPEG

Warranty

1 year parts and 90 days labor warranty backed by Samsung toll-free support.
