The stunning silence of Bosch engineering.

Bosch engineering has raised the stakes by lowering the volume with its new high-performance dishwashers – the quietest line sold in the U.S.**

Silence is a Bosch virtue. That's why the new line of Bosch dishwashers is engineered to be the quietest in the U.S.** Starting with a solid molded base, Bosch engineers added three layers of sound-deadening insulation and a suspension motor, measures that effectively eliminate noise caused by mechanical vibrations. That in turn makes some units up to 300 percent quieter than comparable models. At Bosch, we believe in engineering quiet, and in the sweet sounds of silence.

www.bosch-home.com/us

© 2011 BSH Home Appliances Corporation. **Bosch offers the quietest dishwashers in the U.S., and no major brand offers a quieter model at any Bosch price point, June 2011.
