Dear Friends,

Rising out of the Great Depression 80 years ago, Abt Electronics has truly been an enduring family business success story.

Abt Electronics employs more than 1,300 people today on its huge Glenview campus, a giant leap from its humble beginnings with a handful of workers in the Logan Square neighborhood in 1936.

Please accept my best wishes and share them with the entire Abt family for reaching this prestigious milestone. I have no doubt Abt Electronics will eventually mark 100 years with even more success.

Very truly yours,
