## ADVANTAGE TOSHIBA

- >> HD Dynamic Contrast feature continually analyzes picture information and enhances those parts of the picture with the most detailed information. This results in a sharper, deeper image with rich colors and a more film like image.
- >> PixelPure AT™ (Adaptive Technology) includes Motion Adaptive De-Interlacing, Adaptive MPEG Processing, Adaptive Contrast Enhancement, and Adaptive Color Enhancement, all critical elements to deliver the consistently high quality picture expected from a Toshiba Television.
- >> High Definition MultiMedia Interface (HDMI™) is the next generation of DVI. It includes the DVI digital video signal, and multi-channel digital audio signals on a single cable thus eliminating the need of a multiple cable hookup.
