VOICE RECORDER

Memory Stick® Pro™ Duo Digital Voice Recorder

features

- ▲◆ **Hybrid Storage : 32MB Flash³ /Memory Stick PRO™ Duo Slot⁴** records dictation on built-in Flash Memory or small, compact, high capacity Memory Stick® media cards, and allows recorded cards to be readily distributed for processing; different Memory Stick cards in capacities from 32MB to 512MB can be inserted into the unit for different applications.³
- **Compatible with Dragon NaturallySpeaking™ Preferred Voice to Print Software** to easily convert your recorded files into text.
- ◆ **New STLP Recording Mode: Up to 2 Hours 45 Minutes Recording Time²**
Offers a longer recording time while maintaining 2-channel recording.
- ▲ **Over 300 Personalized Folders** on each Memory Stick media card provides ability to organize message folders by type, such as Sales Letters, Customer Service Replies, Memos, Action Items, Personal, and more, offering the ultimate in efficiency and versatility
- ▲ **Built-in Stereo and Directional Microphones** for extra convenience, eliminates the need for an external microphone.
- ▲ **USB 2.0¹ Compatible** via USB port on a PC.
- **Digital Voice Up® and VOR (Voice Operated Recording) Functions** stops the recording during silent pauses, saving valuable recording time, then begins recording again without missing a single syllable thanks to the digital buffer.
- **Recording Monitor Function** Allows the user to listen to the recording level by using headphone while unit is recording.
