- Feature included.
- A. Blower can be swiveled 90° and vented down through cabinet or out back wall.
- B. All models are UL listed for 3-wire 120/240 VAC.
- C. Can vent up to 60 equivalent feet.
- D. Energy Saver grill element has independent control of front and rear sections of grill (2800 watts).
- E. Excalibur® is a registered trademark of Whitford Corp. Color-coordinated grill covers are tempered glass.

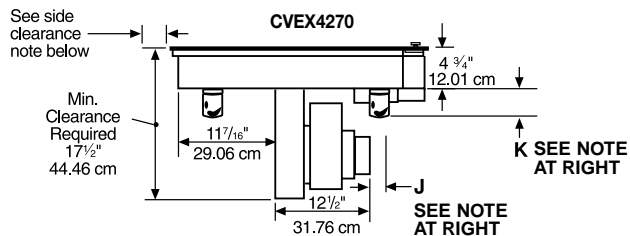

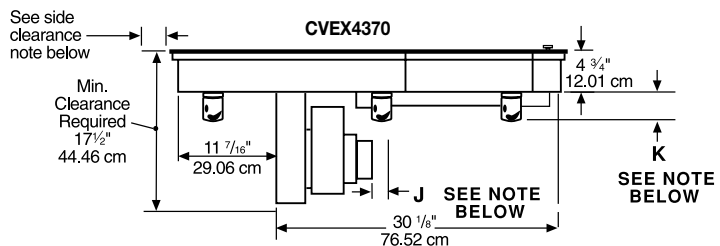

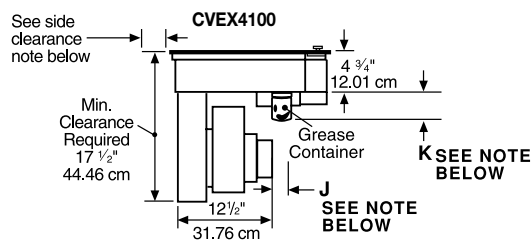

NOTE: Double gas cooktop, Model CVGX2423, may be combined with single electric grill cooktop, Model CVEX4100. Electric cooktop may be placed on either side of gas cooktop and accepts Expressions™ Collection electric cartridges and electric grill accessories. Trim Support Bracket, Model AO918, is required to combine the cooktops.

All Jenn-Air® appliances are appropriately UL, AGA, CSA or CGA approved.

CIRCUIT PROTECTION SPECIFICATION GUIDE

Recommended Minimum		
K.W. Rating On Serial Plate	Circuit Protection In Amperes	Wire Size AWG
0 – 4.8	20	12
4.9 – 6.9	30	10
7.0 – 9.9	40	8
10.0 – 11.9	50	8
12.0 – 14.9	60	6

ELECTRIC DOWNDRAFT COOKTOP DIMENSION DIAGRAMS

NOTES

Dimensions shown in both Inches and Centimeters.
 Dimension "J" – Provide 2" minimum (5.08 cm) cabinet clearance to motor for cooling purpose.
 Dimension "K" – Provide 6 1/4" min (15.88 cm) required for removal of (supplied) grease container(s).
 Installed dimension for (supplied) grease container(s) is 5 1/8" (13.97 cm).

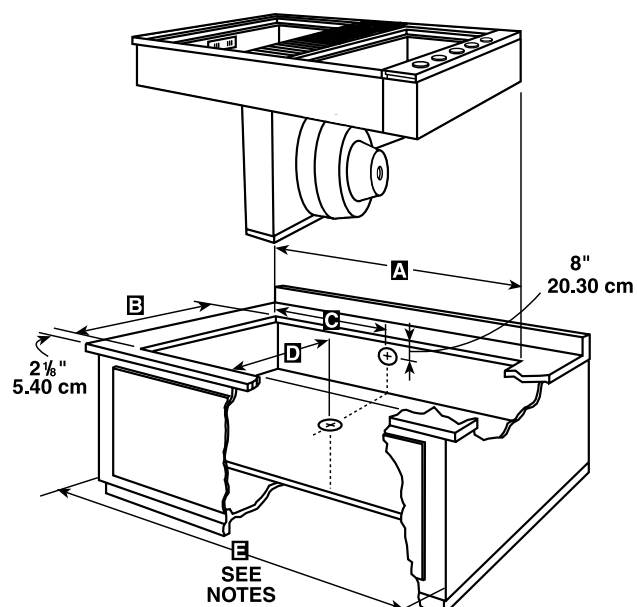

Side Clearance – Grills installed near a side wall must allow a minimum clearance of 6" (15.24 cm) between cooktop and side wall for maximum performance.

IMPORTANT: Cutout Dimensions Are Critical. Refer to installation instructions packaged with product BEFORE making cutouts.

IMPORTANT: Because of continuing product improvements, Jenn-Air reserves the right to change specifications without notice. Dimensional specifications are provided for planning purposes only. For complete details see installation instructions packed with product before selecting cabinetry, making cutouts or beginning installation.

EXPRESSIONS™ COLLECTION ELECTRIC COOKTOPS/ACCESSORIES

ELECTRIC DOWNDRAFT COOKTOP DIMENSION DIAGRAMS

Consult Ducting Guide for Proper Instruction

	A CUTOUT WIDTH		B CUTOUT DEPTH		C DUCT PLACEMENT		D DUCT PLACEMENT		E MIN. CABINET WIDTH	
	in	cm	in	cm	in	cm	in	cm	in	cm
CVEX4100	18 1/16	47.48	20 3/16	52.23	6 3/16	16.03	14 1/16	36.67	21	53.34

IMPORTANT

Dimensions shown in both Inches and Centimeters.
Dimension "A & B" – Tolerances $\pm \frac{1}{16}"$ or $\pm .16$ cm

NOTE

Where possible, 6" (15.24 cm) is recommended for motor blower service. Minimum clearance of 1" (2.54 cm) is required to sidewalls and 3/4" (1.905 cm) to rear wall. Electrical Hookup – The unit must be properly circuit protected and wired according to local electrical codes.

These appliances have been designed in accordance with the requirements of various safety agencies and comply with the maximum allowable wood cabinet temperatures of 194°F. If these appliances are installed with cabinets that have a lower working temperature than 194°F, discoloration, delamination or melting may occur.

IMPORTANT: Cutout Dimensions Are Critical. Refer to installation instructions packaged with product BEFORE making cutouts.

- Feature included.
- A. Blower can be swiveled 90°.
- B. Electric supply for pilotless ignition and electric griddle: 120 VAC, 60 HZ. Power cord supplied.
- C. Regular connection ¹/₂" N.P.T. (male pipe).
- D. Can vent up to 60 equivalent feet.
- E. Electric grill accessories are designed for use ONLY with electric cooktops. Gas grill accessories are designed for use ONLY with gas cooktops. These accessories are not interchangeable. Gas grill accessories include a griddle and one-piece grill cover.
- F. Model A0142 Wok is designed for use with gas surface burners, conventional coil and radiant elements.
- G. An optional gas two-burner module may be used in place of the grill assembly. When substituting the two-burner module for the grill the rating will be 8,000 BTU for each burner.
- H. Grill grates are coated with Excalibur® finish. Excalibur® is a registered trademark of Whitford Corp.
- I. Jenn-Air® gas cooktops are factory-set for natural gas but can be converted to LP. Conversion kit is shipped with cooktop. It is recommended that a qualified servicer perform the conversion.
- J. Order stainless steel backsplash model A509S for cooktop model JGD8348CDP.

All cartridges and accessories are optional.

All Jenn-Air® appliances are appropriately UL, AGA, CSA or CGA approved.

- Feature Included
 - * Excluding oven door handle. Add approximately 2 ¼" for door handle.
- A. MultiMode® convection selections include Convection Bake, Convection Roast, Convection Broil and Convection Pastry. Convection air is also used with the Drying and Thaw & Serve options. For drying, an optional high-quality mesh drying rack is available as an accessory. Order model #DRYINGRACK.
- B. Oven models JJW8527DD and JJW8530DD have one EasyRack™ oven rack and one off set rack. Oven models JJW9530DD and JJW9530DDP have one EasyRack™ oven rack, one standard rack and one Create-A-Space™ half rack which is a full-width oven rack that may be converted to a half-rack. Oven model JJW9527 has one EasyRack™ oven rack, one offset rack and one Create-A-Space™ half rack. Convenience oven model JJW7530 has one oven rack specially designed for toasting.
- C. The Automatic Convection Conversion option takes the guesswork out of convection cooking by automatically converting standard cooking temperature/time to the correct settings for convection cooking.
- D. The Favorite Setting option ensures consistent results every time by allowing you to name, program and save the cook time, oven temperature and cooking method for up to 10 of your favorite recipes. Convenience oven model JJW7530DD has memory for one Favorite Setting.
- E. The Cook & Hold option keeps food warm for up to one hour after the cook time has expired. The oven automatically turns off after the one hour Hold time has expired.
- F. Jenn-Air® wall ovens with convection offer a Bread Proofing feature that provides a controlled environment for proofing or allowing yeast bread products to rise in the oven prior to baking. Two methods are provided – Standard Proofing and Rapid Proofing.
- G. The Setup pad on the wall oven control panel lets the user customize several oven functions and features. These include, but are not limited to, Sabbath Mode option, language option of English, French or Spanish, Fahrenheit or Celsius temperature display, and an Energy Saver option that allows the control display to go dark when the oven is not in use.

All Jenn-Air® appliances are appropriately UL, AGA, CSA or CGA approved.

These appliances have been designed in accordance with the requirements of various safety agencies and comply with the maximum allowable wood cabinet temperatures of 194°F. If these appliances are installed with cabinets that have a lower working temperature than 194°F, discoloration, delamination or melting may occur.

Electrical Requirements: Provide for 120/240 or 120/208 VAC, 60 Hz. See serial plate on front of unit for power requirements.

IMPORTANT: Cutout Dimensions Are Critical. Refer to installation instructions packaged with product BEFORE making cutouts.

• Feature Included

* Excluding oven door handle. Add approximately 2 1/4" for door handle.

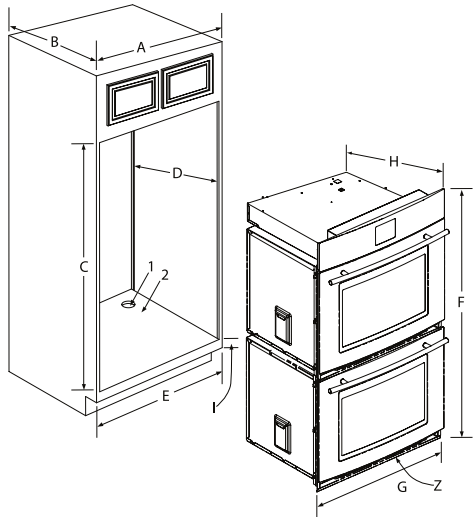

- A. MultiMode® convection selections include Convection Bake, Convection Roast, Convection Broil and Convection Pastry. Convection air is also used with the Drying and Thaw & Serve options. For drying, an optional high-quality mesh drying rack is available as an accessory. Order model #DRYINGRACK.
- B. Oven model JJW8627DD has one EasyRack™ oven rack, and one offset rack in each oven. Oven model JJW9627DD has one EasyRack™ oven rack, one offset rack and one Create-A-Space™ half-rack in the upper oven and one EasyRack™ oven rack and one offset rack in the lower oven. Oven model JJW9827DD has one EasyRack™ oven rack, one offset rack and one Create-A-Space™ half-rack in each oven. Oven model JJW8630DD has one EasyRack™ oven rack and one offset rack in each oven. Oven model JJW9630DD has one EasyRack™ oven rack, one standard rack and one Create-A-Space™ half-rack in the upper oven and one EasyRack™ oven rack and one standard rack in the lower oven. Oven model JJW9830DD has one EasyRack™ oven rack, one standard rack and one Create-A-Space™ half-rack in each oven. The EasyRack™ oven rack has an opening at the front of the rack for easily grasping cookware without handles or sides, such as cookie sheets and baking stones. The Create-A-Space™ half-rack is a full-width rack that may be converted to a half-rack.
- C. The Automatic Convection Conversion feature takes the guesswork out of convection cooking by automatically converting standard cooking temperature/time to the correct settings for convection cooking.
- D. The Favorite Settings option ensures consistent results every time by allowing you to name, program and save the cook time, oven temperature and cooking method for up to 10 of your favorite recipes.
- E. The Cook & Hold option keeps food warm for up to one hour after the cook time has expired. The oven automatically turns off after the one hour Hold time has expired.
- F. Jenn-Air® wall ovens with convection offer a Bread Proofing feature that provides a controlled environment for proofing or allowing yeast bread products to rise in the oven prior to baking. Two methods are provided – Standard Proofing and Rapid Proofing.
- G. The Setup pad on the wall oven control panel lets the user customize several oven functions and features. These include, but are not limited to, Sabbath Mode option, language option of English, French or Spanish, Fahrenheit or Celsius temperature display, and an Energy Saver option that allows the control display to go dark when the oven is not in use.

All Jenn-Air® appliances are appropriately UL, AGA, CSA or CGA approved.

IMPORTANT: Because of continuing product improvements, Jenn-Air reserves the right to change specifications without notice. Dimensional specifications are provided for planning purposes only. For complete details see installation instructions packed with product before selecting cabinetry, making cutouts or beginning installation.

** Lower oven cavity on combination ovens

A. MultiMode® convection selections include Convection Bake, Convection Roast, Convection Broil and Convection Pastry. Convection air is also used with the Drying and Thaw & Serve options. For drying, an optional high-quality mesh drying rack is available as an accessory. Order model #DRYINGRACK.

B. Oven models JMW8527DD and JMW8530DD have one EasyRack™ oven rack and one offset rack. Oven model JMW9527DD has one EasyRack™ oven rack, one offset rack and one Create-A-Space™ half rack. Oven model JMW9530DD has one EasyRack™ oven rack, one standard rack and one Create-A-Space™ half rack. The EasyRack™ oven rack has an opening at the front of the rack for easily grasping cookware without handles or sides, such as cookie sheets and baking stones. The Create-A-Space™ half rack is a full-width rack that may be converted to a half-rack. Gas wall oven JGW8130DD has two standard oven racks. An optional half-rack, model # HALFRACK, is available. To order, contact a Jenn-Air dealer.

C. Has the same features as model JMC8127DD/JMC8130DD (see pages 100-101 for microwave features and specifications).

D. The Automatic Convection Conversion feature takes the guesswork out of convection cooking by automatically converting standard cooking temperature/time to the correct settings for convection cooking.

E. The Favorite Settings option ensures consistent results every time by allowing you to name, program and save the cook time, oven temperature and cooking method for up to 10 of your favorite recipes. Gas wall oven model JGW8130DD has memory for one Favorite Setting.

F. The Cook & Hold option keeps food warm for up to one hour after the cook time has expired. The oven automatically turns off after the one hour Hold time has expired.

G. Jenn-Air® electric wall ovens with convection offer a Bread Proofing feature that provides a controlled environment for proofing or allowing yeast bread products to rise in the oven prior to baking. Two methods are provided – Standard Proofing and Rapid Proofing.

H. The Setup pad on the electric wall oven control panel lets the user customize several oven functions and features. These include, but are not limited to, Sabbath Mode option, language option of English, French or Spanish, Fahrenheit or Celsius temperature display, and an Energy Saver option that allows the control display to go dark when the oven is not in use.

*** Built-In Microwave Models JMC8127, JMC8130 and JMC9158 may not be installed above gas wall oven Model JGW8130.

All Jenn-Air® appliances are appropriately UL, AGA, CSA or CGA approved.

IMPORTANT: Cutout Dimensions Are Critical. Refer to installation instructions packaged with product BEFORE making cutouts.

These appliances have been designed in accordance with the requirements of various safety agencies and comply with the maximum allowable wood cabinet temperatures of 194°F. If these appliances are installed with cabinets that have a lower working temperature than 194°F, discoloration, delamination or melting may occur.

- Feature included.

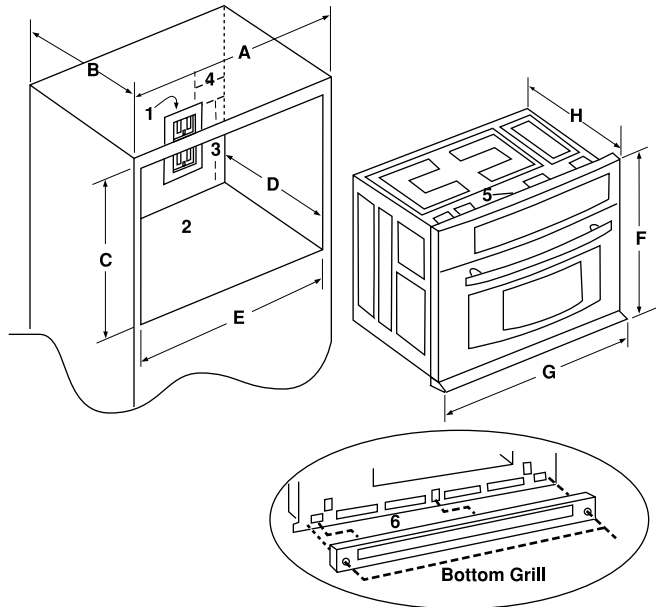

- A. Excluding oven door handle. Add Approximately 2 1/4" for door handle.
- B. Model JMV8208 has a turntable with rectangular bottom that accommodates large pans. It slides from side to side to ensure even heating.
- C. Safely keeps cooked food warm for up to 99 minutes (JMC9158) or 90 minutes (JMV8208) using microwave energy. May be used by itself or to automatically follow a cooking cycle.
- D. These time saving features let you start the microwave without using the Start pad.
- E. Model JMV8208 features a WideGlide™ tray that moves from side to side to aid in even heating.
- F. The ventilation fan automatically activates when the temperature gets too hot around the microwave. The fan may also be turned on and off manually from the microwave control panel. Model JMV8208 features a vent auto time set pad for setting 1 - 30 minutes of ventilation time. The microwaves are preset for recirculating ventilation. They may be converted to outside ventilation. Duct size is 3 1/4" x 10".
- G. Trim kits to install JMC9158 above Jenn-Air® wall ovens include:
AST2780AB/W/C/S for 27" wall oven.
Installed dimensions are 20 5/16" H x 26 7/8" W. AST3080AB/W/C/S for 30" oven.
Installed dimensions are 20 5/15 H x 29 3/4" W.

JMC8127, JMC8130 and JMC9158 models may not be installed above a gas wall oven.

IMPORTANT: Because of continuing product improvements, Jenn-Air reserves the right to change specifications without notice. Dimensional specifications are provided for planning purposes only. For complete details see installation instructions packed with product before selecting cabinetry, making cutouts or beginning installation.

B	29 $\frac{5}{8}$	174.4
C	15 $\frac{3}{8}$	39.1
D	30	76.2
E	30	76.2

Notes:

1. 33" from the countertop to the top of the microwave cutout is recommended for optimal performance of gas range and microwave.

MODEL JMC9158 MICROWAVE OVEN
INSTALLATION ABOVE SINGLE ELECTRIC WALL OVEN

Note 1: When installing this Kit above a built-in oven, check built-in oven installation instructions to determine cutout dimensions for the (lower) wall oven.

Note 2: For a new installation, the 48" height dimension to the bottom of the cutout for the microwave oven is recommended. This places the microwave oven bottom at approximately 50" from the floor.

• Feature Included

- A. Electric models are UL listed for 3-wire 120 VAC.
- B. Includes Jenn-Air® electric wall oven models JJW7530, JJW8130, JJW8530, JJW9130, JJW9530, JJW8230, JJW8630, JJW9230, JJW9630, JJW9830, JMW8130, JMW8530, JMW9530 and Jenn-Air gas wall oven JGW8130. Jenn-Air® electric cooktop models JEC8430, JEC8536, JEC9530, JEC9536, JEC0530, JEC0536 and Jenn-Air gas cooktop models JGCP430ADP, JGCP636ADP, JGCP648ADP, JGC8430, JGC8536, JGC8645, JGC9430 and JGC9536.
- C. Order model number DRAWERPANS.
- D. A drawer front is required for mounting to the JWD7030CDX base unit. Order the front that coordinates with your Jenn-Air® wall oven and/or cooktop or best compliments the room's décor. Order the panel kit for installing a custom panel on the warming drawer to match surrounding cabinetry. Depending on the style of cabinetry and construction of the custom panel, the front of the custom panel on the warming drawer may not fit flush with surrounding cabinetry. When using the panel kit, installation of a custom handle is required (purchase custom panel and handle separately).

WARMING DRAWER

PRODUCT DIMENSIONS

INSTALLATION UNDER A COUNTER

CUSTOM PANEL INSTALLATION KIT

This kit contains a mounting panel to attach to a custom drawer front. A custom handle of your choice must be installed with the front on the mounting panel.

Parts supplied:

- Mounting panel
- 7 mounting screws

The warming drawer should be installed according to the installation instructions packed with the product.

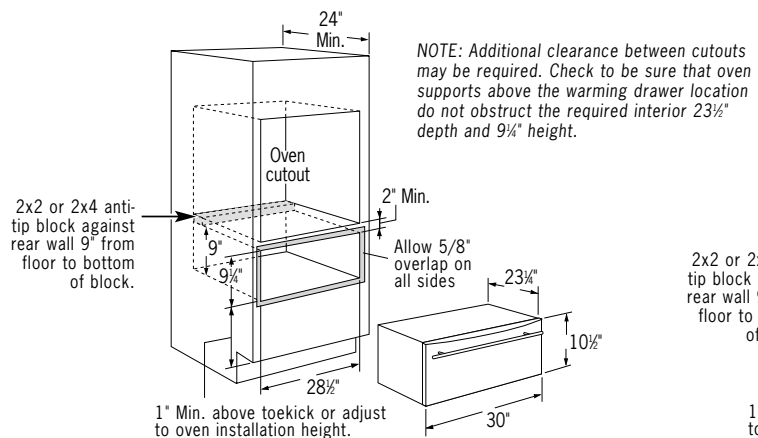

- The edges of the custom drawer front will be visible and should be finished for best appearance.
- The custom drawer front should be constructed in the same manner as typical cabinet doors.
- When ordering the custom drawer front from the cabinet manufacturer the overall dimensions should be 10 1/2" high by 29 5/8" wide.
- Order a custom handle to match the surrounding cabinetry handles.

Mounting options:

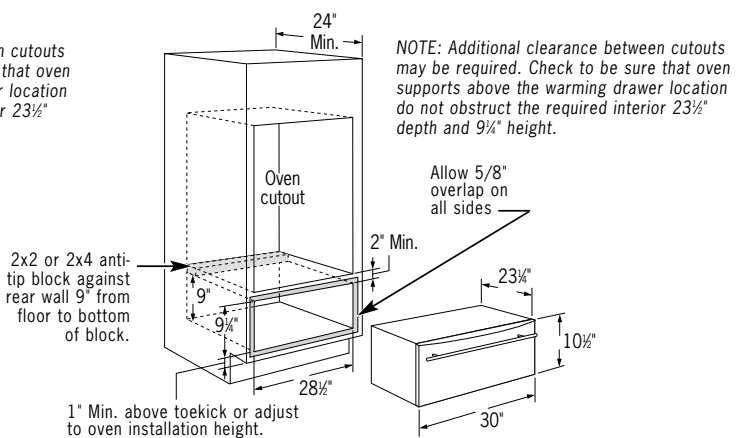

- Adhesive (recommended for panels less than 3/4" thick)
- Screws (for 3/4" panels)

CAUTION: Select screw length to avoid penetration of finished side. Do not drill completely through the custom panel.

INSTALLATION BELOW A SINGLE WALL OVEN

INSTALLATION BELOW A DOUBLE WALL OVEN

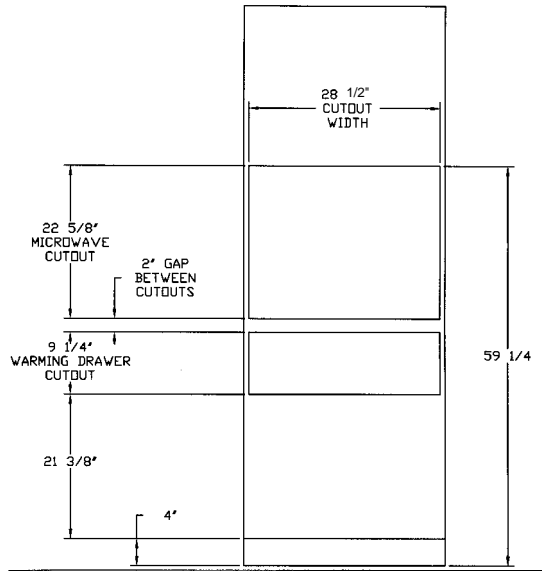

NOTE: Electrical receptacle can be installed as shown for countertop installations. Do not install receptacle above the top of the warming drawer cutout.

IMPORTANT: Cutout Dimensions Are Critical. Refer to installation instructions packaged with product BEFORE making cutouts.

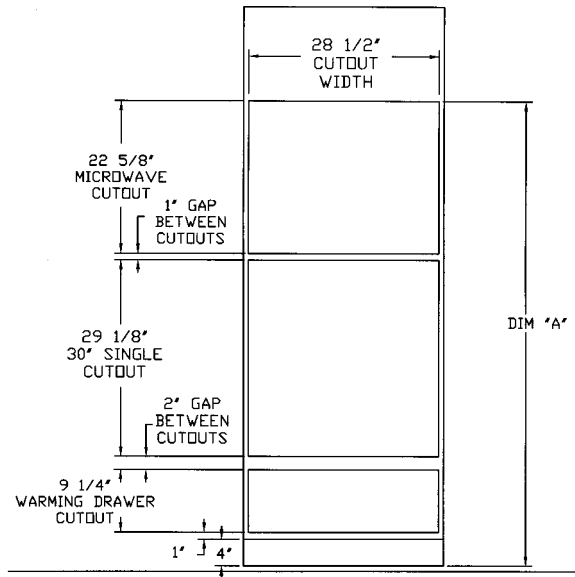

IMPORTANT: Because of continuing product improvements, Jenn-Air reserves the right to change specifications without notice. Dimensional specifications are provided for planning purposes only. For complete details see installation instructions packed with product before selecting cabinetry, making cutouts or beginning installation.

MULTIPLE OVEN INSTALLATION OPTIONS

JMC8130 MICROWAVE AND WARMING DRAWER INSTALLATION

For complete details see installation instructions packed with product before selecting cabinetry, making cutouts or beginning installation.

MULTIPLE OVEN INSTALLATION OPTIONS

JJW7530 CONVENIENCE OVEN, SINGLE WALL OVEN AND WARMING DRAWER INSTALLATION

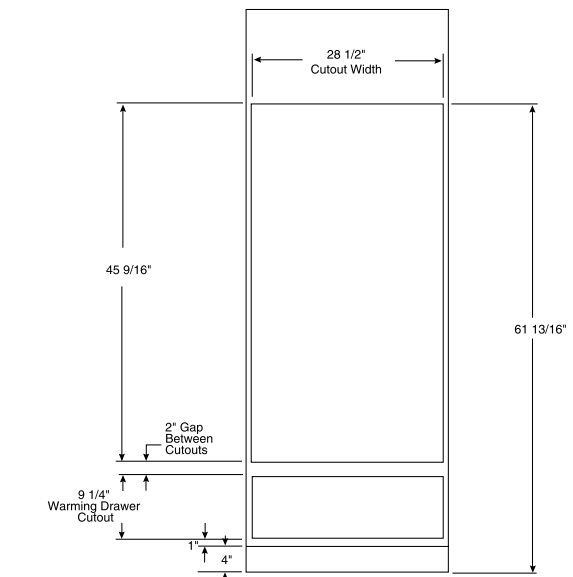

NOTE: When installing the Convenience Oven above a Single Wall Oven or another Convenience Oven, a bracket to combine the two ovens is required. Order part # CONVBRACKT. The bracket kit includes a black front air grille that bridges the gap between the upper and lower ovens.

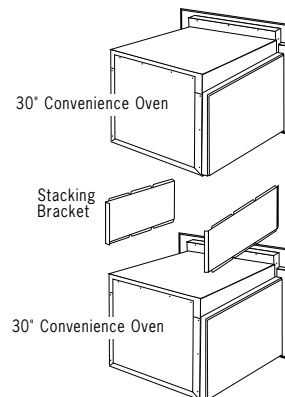

Mount the stacking brackets to the lower oven using the screws provided in the kit. Place the upper oven on the brackets and secure with the remaining screws.

NOTE: Lower oven may require drilling four 1/8" (3.175mm) diameter holes using the stacking bracket as a template.

JJW7530 CONVENIENCE OVEN OVER JJW7530 CONVENIENCE OVEN INSTALLATION

NOTE: When installing the Convenience Oven above a Single Wall Oven or another Convenience Oven, a bracket to combine the two ovens is required. Order part # CONVBRACKT. The bracket kit includes a black front air grille that bridges the gap between the upper and lower ovens.

Mount the stacking brackets to the lower oven using the screws provided in the kit. Place the upper oven on the brackets and secure with the remaining screws.

NOTE: Lower oven may require drilling four 1/8" (3.175mm) diameter holes using the stacking bracket as a template.

A. Dimension given is with leveling legs all the way in. Height with leveling legs extended is 34 1/4 - 35"

B. Depth is with 3/4" cabinet panel installed.

Door clearance required at 90° is 16 3/8" min.

C. Order part #JIMPUMPAXX. For use when gravity drain is not available.

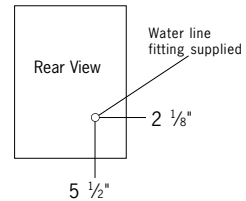

All Jenn-Air® appliances are appropriately UL, AGA, CSA or CGA approved.

BUILT-IN UNDER COUNTER ICE MACHINE DIMENSION DIAGRAMS

1 1/2" I.D. drain pipe, up to 3" high above floor

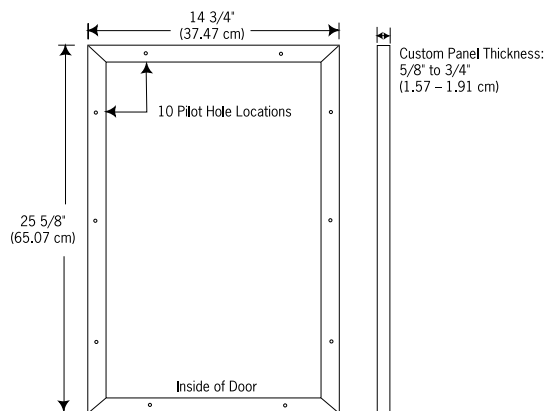

Drain Pump Kit for Clear Ice Machine (#JIMPUMPAXX)

This scaled reservoir drain pump is designed exclusively for ice machines that require a drain and where a floor drain is not readily available.

Water Connection

1/4" inlet water line. If water line is connected directly behind the ice maker, allow an additional 2" clearance.

Water pressure required:
20-100 PSI

CUSTOM DOOR PANEL DIMENSION DIAGRAM**Custom Handle**

1. A custom handle (not supplied) must be installed.
2. Drill pilot holes through the custom panel to match the handle. Countersink the holes in the back of the panel.
3. Attach the custom handle to the front door panel assembly.

NOTE: The custom handle screws should be installed through custom panel and into the custom handle. The screw heads should be countersunk so the inside panel surface can be installed flush with the ice machine door.

- Feature included
- A. Add approximately 2" for door handle. Dimension given is from wall to front of oven door. Depth with oven door open is 49 3/8".
- B. Jenn-Air® electric ranges feature an 8-pass recessed broil element.
- C. All electric models are UL listed for 3-wire 120/240 VAC. Gas models are 120 VAC.
- D. Models JES8750 and JES8850 have 2, 6" 1200W and 1, 9" 2200W Quick-Start™ radiant elements, and 1, 12"/9" 2700W/1700W Custom Choice™ dual radiant element. Model JES9800 has 2, 6" 1200W Quick-Start™ radiant elements and 2, 9"/6" 2200W/700W Custom Choice™ dual radiant elements.
- E. Can vent up to equivalent 60 feet.
- F. Model JES9750 and JES9860 include an electric grill assembly with 1900W element and removable liner pan that may be used in the left bay only. Jenn-Air® slide-in ranges accept only Designer Line accessories. Electric grill accessories are designed for use ONLY with electric grill-ranges. Gas grill accessories are designed ONLY for gas grill ranges. These accessories are not interchangeable.
- G. A cartridge must be purchased for the right bay of electric grill-ranges. Choose from coil element or radiant element cartridges.
- H. Jenn-Air® slide-in convection ranges feature a dehydration selection for drying your own fruits, herbs, flowers, etc. An optional mesh drying rack is available. Order Model # DRYINGRACK.
- I. This feature may be used to safely keep food warm or for warming breads or plates in the oven.
- J. The oven Bread Proofing feature protects the dough from temperature changes or drafts when proofing or allowing yeast bread products to rise before baking.
- K. Jenn-Air® slide-in ranges (except Pro-Style® model) have customized controls, allowing the user to set the chime sound level, frequency of chimes, scroll speed of messages, change the temperature scale to Centigrade or Fahrenheit, use the clock as a 12-hour or 24-hour clock or disable the time-of-day display. Language in the display may be set to English, French or Spanish. The oven may also be set to stay on indefinitely (Sabbath Mode) by changing the default that automatically turns the oven off after 12 hours.
- L. The Auto Set/Preset pad may be used with oven function pads to automatically set standard bake, convect bake, convect roast, broil, drying, probe, keep warm and bread proofing pre-sets. It may also be used for a pre-set 3 hour cleaning time.
- M. Optional 6" Custom backslash (model UXA9007AAB/W/Q) is available. In a free-standing installation, a side panel (model UXA1000AAB/W/Q/P) is required if either side is exposed. Free-standing installation requires a backslash.

Excalibur® is a registered trademark of Whitford Corp.

See chart on page 116 for cartridge and accessory usage.

Note: All Jenn-Air® downdraft ranges except model JES9800 are shipped complete with one grill assembly. All cartridges, accessories, backsplashes and side panels are optional.

All Jenn-Air® appliances are appropriately UL, AGA, CSA, or CGA approved.

- Feature included
- A. Add approximately 2" for door handle. Dimension given is from wall to front of oven door. Depth with oven door open is 49 3/8".
- B. Hi/Lo burner ratings: 12,000/1,500; 10,500/1,500; 9,100/1,100; 6,500/850. Jenn-Air® dual-fuel ranges feature an 8-pass recessed broil element.
- C. Gas models are 120 VAC. Dual fuel models are UL listed for 3-wire 120/240 VAC and require a separate gas supply.
- D. Dual-fuel slide-in range models JDS9860 are shipped with a gas grill assembly and one, two-burner module with sealed burners. Dual-fuel slide-in range model JDS8850 has four fixed sealed gas burners.
- E. The 6500 BTU simmer burner reduces to 850 BTU on Lo setting.
- F. Can vent up to equivalent 60 feet.
- G. Models JDS9860 include a gas grill assembly with E-ven Heat™ grill burner that may be used in the left bay only. Jenn-Air® slide-in ranges accept only Designer Line accessories. Electric grill accessories are designed for use ONLY with electric grill-ranges. Gas grill accessories are designed ONLY for gas grill ranges. These accessories are not interchangeable.
- H. Dual-fuel grill ranges accept the two-burner module that may be used in place of the grill. BTU ratings in the grill bay are 8,000 BTU for each burner.
- I. Jenn-Air® gas slide-in ranges feature a 1200W electric element that surrounds the broil burner and flame spreader to help distribute heat more evenly for better baking, roasting and broiling results.
- J. Jenn-Air® slide-in convection ranges feature a dehydration selection for drying your own fruits, herbs, flowers, etc. An optional mesh drying rack is available. Order model #DRYINGRACK.
- K. This feature may be used to safely keep food warm or for warming breads or plates in the oven.
- L. The oven Bread Proofing feature protects the dough from temperature changes or drafts when proofing or allowing yeast bread products to rise before baking.
- M. Jenn-Air® slide-in ranges (except Pro-Style model) have customized controls, allowing the user to set the chime sound level, frequency of chimes, scroll speed of messages, change the temperature scale to Centigrade or Fahrenheit, use the clock as a 12-hour or 24-hour clock or disable the time-of-day display. Language in the display may be set to English, French or Spanish. The oven may also be set to stay on indefinitely (Sabbath Mode) by changing the default that automatically turns the oven off after 12 hours.
- N. The Auto Set/Presets pad may be used with oven function pads to automatically set standard bake, convect bake, convect roast, broil, drying, probe, keep warm and bread proofing pre-sets. It may also be used for a pre-set 3 hour cleaning time.
- O. Optional 6" Custom backsplash (model UXA9007AAB/W/Q) or 12" (model JXA9112AAP) and 30" (model JXA9130AAP) Pro-Style™ stainless steel backsplashes are available. In a free-standing installation, a side panel (model UXA1000AAB/W/Q/P) is required if either side is exposed. Free-standing installation requires a backsplash.

Excalibur® is a registered trademark of Whitford Corp.

See chart on page 116 for cartridge and accessory usage.

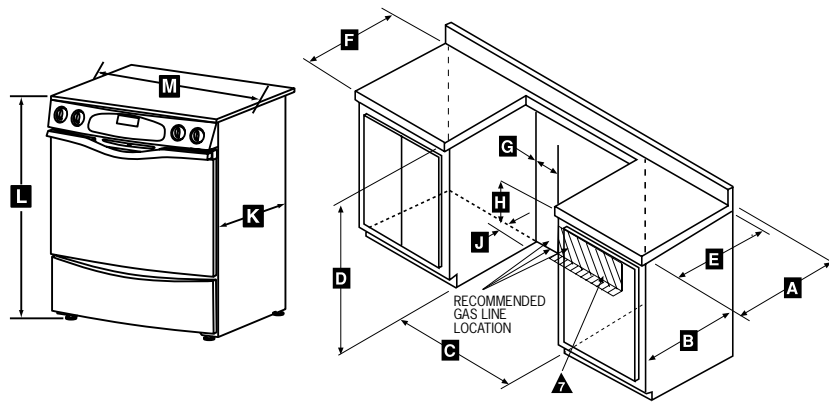

Note: All Jenn-Air® downdraft ranges except model JES9800 are shipped complete with one grill assembly. All cartridges, accessories, backsplashes and side panels are optional.

All Jenn-Air® appliances are appropriately UL, AGA, CSA, or CGA approved.

E	18 min.	45.7
F	3 min.	7.6

Notes:

1. Depth of cabinets above cooktop.
2. 0" clearance between adjacent combustible construction and the back and sides of the range below the cooking surface.

Notes:

1. Before attempting installation, adjust range leveling legs to accommodate this dimension.
2. Minimum flat area.
3. Cut depth. When replacing an existing unit, a maximum cut depth of 23 1/2" (59.7 cm) is acceptable. If the cut depth exceeds 23 1/2", use filler kit, K70FILL.
4. Dimension K is from the wall to the side edge of the oven door. It does not include the curvature of the glass or the depth of the handle.
5. Dimension L is with the leveler legs adjusted all the way in. This may vary slightly upon leveling leg adjustment.
6. Do not use grout, epoxy, etc., to install this unit. Installation must allow for removal of this appliance from the installed location for purposes of servicing.
7. Provide for either a 3-wire or 4-wire 120/208, 120/240 volt outlet per applicable cord in shaded area shown.

Refer to installation instructions for proper positioning of outlet.

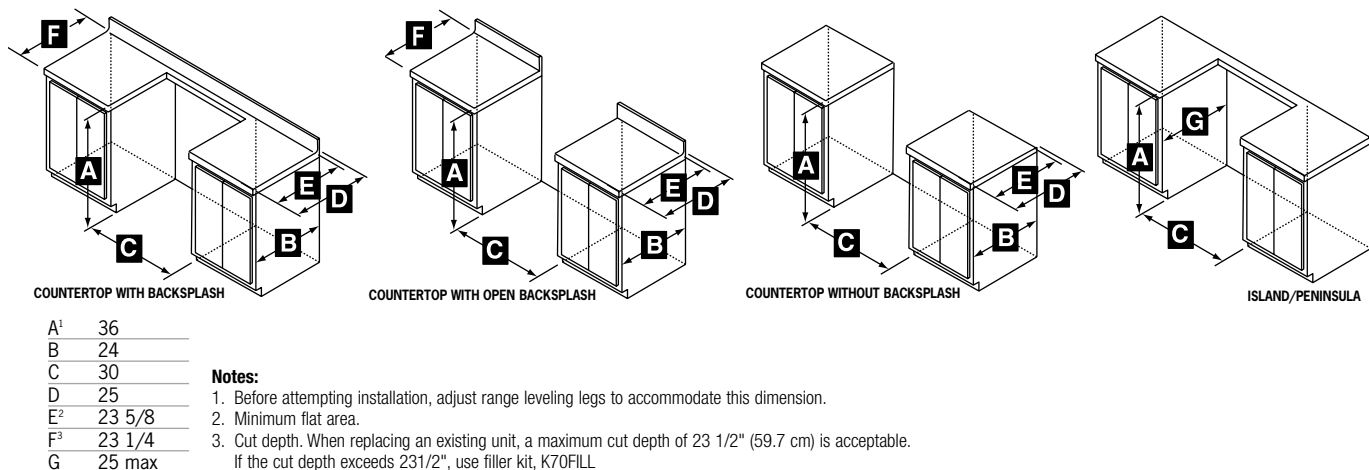

8. Side Clearance - Ranges installed near a side wall must allow a minimum clearance of 3" (7.5 cm).
9. Overhead Cabinetry - Provide 30" (76.2 cm) minimum vertical clearance between cooking surface and construction above the appliance. Allow 13" (33.02 cm) maximum depth of cabinets installed above cooking surface.
10. A slide-in range, if equipped with optional backguard kit, may be installed zero inches from wall. For freestanding range look, must use optional backguard kit and optional side panel kits.
11. Downdraft ranges can be vented to the equivalent of 60 feet. See installation instructions for downdraft ventilation.
12. Gas models are convertible to LP gas. Components are supplied with range, however it is recommended a qualified service technician perform the conversion.

These appliances have been designed in accordance with the requirements of various safety agencies and comply with the maximum allowable wood cabinet temperatures of 194°F. If these appliances are installed with cabinets that have a lower working temperature than 194°F, discoloration, delamination or melting may occur.

Caution: Some white European style cabinets are equipped with delicate white vinyl drawer and door fronts. The vinyl may not be designed to withstand the heat produced by the normal safe operation of a self-cleaning range. Discoloration or delamination may occur. To avoid possible damage, we recommend increasing the 30" (76.2 cm) cabinet opening to 31 1/4" (79.4 cm) minimum and using a heat shield kit (CABKIT V), which may be ordered separately. The countertop cutout must remain 30" (76.2 cm).

IMPORTANT: Cutout Dimensions Are Critical. Refer to installation instructions packaged with product BEFORE making cutouts.

TYPICAL SLIDE-IN RANGE INSTALLATIONS

A ¹	36
B	24
C	30
D	25
E ²	23 5/8
F ³	23 1/4
G	25 max

Notes:

1. Before attempting installation, adjust range leveling legs to accommodate this dimension.
2. Minimum flat area.
3. Cut depth. When replacing an existing unit, a maximum cut depth of 23 1/2" (59.7 cm) is acceptable. If the cut depth exceeds 23 1/2", use filler kit, K70FILL.

IMPORTANT: Because of continuing product improvements, Jenn-Air reserves the right to change specifications without notice. Dimensional specifications are provided for planning purposes only. For complete details see installation instructions packed with product before selecting cabinetry, making cutouts or beginning installation.

• Feature Included

- A. Models PRG4810NP and PRG4810LP have a 5.3 cu. ft. main oven with convection and a 2.2 cu. ft. secondary bake oven.
- B. High and low BTU rates shown are for Natural gas. BTU rates will vary slightly when LP gas is used.
- C. The Dual Flame™ burner offers 15,000 BTU on high with both rings lit and 1200 BTU on high with the inner ring only lit. Low turn down rates are 4,000 BTU with both rings lit and 520 BTU with only the inner ring lit.
- D. Gas Models are 120 VAC. Dual-fuel models are UL listed for 3-wire 120/240 VAC and require a separate gas supply.
- E. Dual-fuel models PRD3030NP and PRD3630NP may be converted to LP gas. A conversion kit is included, however it is recommended that a qualified servicer perform the conversion.
- F. PRD model and PRG model ranges require use of a PRAD or PRAG model backsplash. 30" models PRG3010NP, PRG3010LP and PRD3030NP are shipped with a 9" backsplash but accept other backsplashes. See Accessory Usage chart on page 116 for backsplashes available for all models.
- G. See page 132-133 for hood specifications and features.

All Jenn-Air® appliances are appropriately UL, AGA, CSA or CGA approved.

- A. PRG model ranges require an optional PRAD/PRAG backsplash. Models PRAD3030NP, PRG3010NP and PRG3010LP are shipped with a 9" backsplash. The 1.5" backsplash is for use in island or non combustable wall installations. See page 132-133 for specifications of JXA and JXT accessories.
 B. Hood models shown will be available late Summer 2004. Prior to their availability, order hood model JXT9048BDP, JXT9036BDP or JXT9030BDP featured in the previous Culinary Inspirations brochure (JCAT 11/03).
 C. Use with hood when installation location has no soffit.

SIDE-BY-SIDE REFRIGERATORS

- Feature included.
- A. Model JSD2789HE features Twin Fresh™ Climate Control with rotary dial controls.
- B. Energy Star models exceed 2004 Federal Energy Efficiency Standards by 20%, except model JSD2789HE which exceeds Federal Energy Efficiency Standards by 15%.
- C. Stainless steel models feature a black textured steel cabinet, stainless steel doors with full-length handles, black convenience center (dispenser models) and a black kickplate. Models JCD2295HES and JCB2285HES have stainless steel bar handles.
- D. Factory installed perimeter trim is set to 1/8" at the factory and adjusts to 1/4". Custom door panel thickness is 1/4" maximum. See page 124 for door panel dimensions.
- E. Stainless steel trim models do not have curved door perimeter.
- F. Models JCD2290HES, JCD2292HTW/B, JCB2280HES, and JCB2292HTB/W feature full-length, silver etched, soft touch handles. Model JSD2789HES features full-length silver etched handles. Models JCD2295HES and JCB2285HES feature full-length, stainless steel bar handles. Model JCD2290HEB/W/Q, JCB2280HEB/W/Q, and JSD2789HEB/W feature easy-grip, color matching, contoured handles.

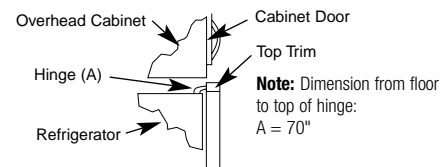

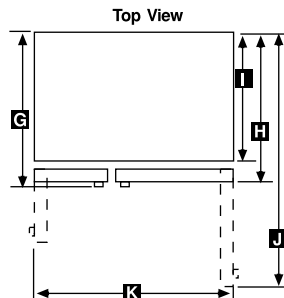

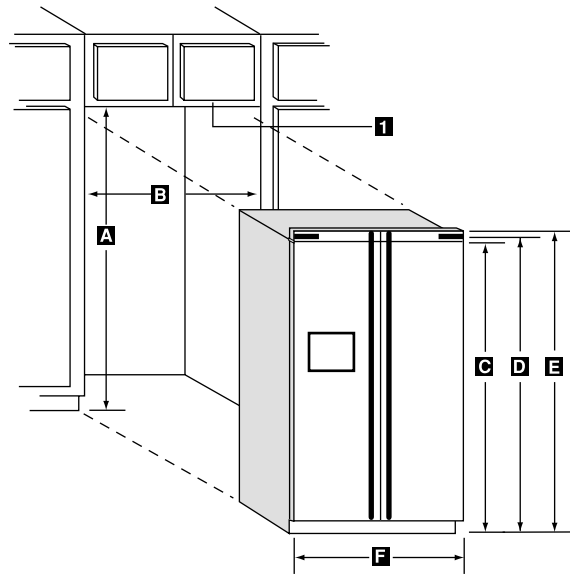

Designer Panel & Trim Kits: Custom color your Jenn-Air® refrigerator and create your own designer-look kitchen. Over 60 contemporary colors and mirrored finishes, stainless steel, satin alloy, 25 designer patterns of solid surface countertop veneer, and any type of real wood panels. All kits are custom made to order – call Frigo Design at 800-836-8746.

Jenn-Air offers PuriClean® replacement filter with change reminder, UKF8001AXX, that removes lead, cysts, chlorine, and particulates and select pesticides and insecticides as well as bad tastes and odors that may be present in the water supply. The filter retains flouride, a beneficial nutrient. Refrigerator Model JSD2789 uses replacement filter UKF7003AXX that removes taste, odor, chlorine, cysts and lead. To order replacement filter cartridges, call 1-800-688-8408.

All Jenn-Air® appliances are appropriately UL, CSA or CUL approved.

* Add 1/2" on all sides for ease of installation. Depth dimensions given include 1/2" back air clearance.

SIDE BY SIDE CABINET DEPTH REFRIGERATORS

**Notes:**

1. Additional cutout space may be required for European-style full door cabinets.
2. Allow additional 1/2" to depth for water line on dispenser models or if icemaker is installed.

• Feature included

A. Energy Star models exceed 2004 Federal Energy-Efficiency Standards by 15%.

B. Jenn-Air offers PuriClean® replacement filter with change reminder, UKF8001AXX, that removes lead, cysts, chlorine, and particulates and select pesticides and insecticides as well as bad tastes and odors that may be present in the water supply. The filter retains flouride, a beneficial nutrient. To order replacement filter cartridges, call 1-800-688-8408.

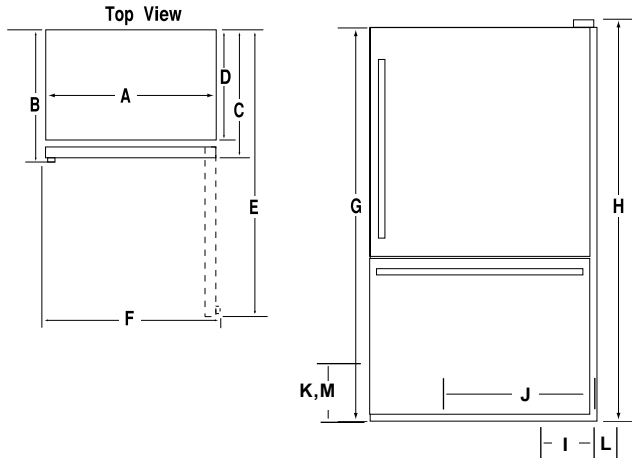

C. Model JFC2087HRS, JBR2086HES and JBL2086HES have a black cabinet with stainless steel doors and towel bar handles. Model JFC2087HRP has a black cabinet with stainless steel doors and Pro-Style™ stainless steel diamond etched towel bar handles.

Designer Panels: Custom color your Jenn-Air® bottom freezer refrigerator and create your own designer-look kitchen. Over 60 contemporary colors and mirrored finishes, stainless steel, satin alloy, 25 designer patterns of solid countertop veneer, and any type of real wood panels. All kits are custom made to order – call Frigo Design at 800-836-8746.

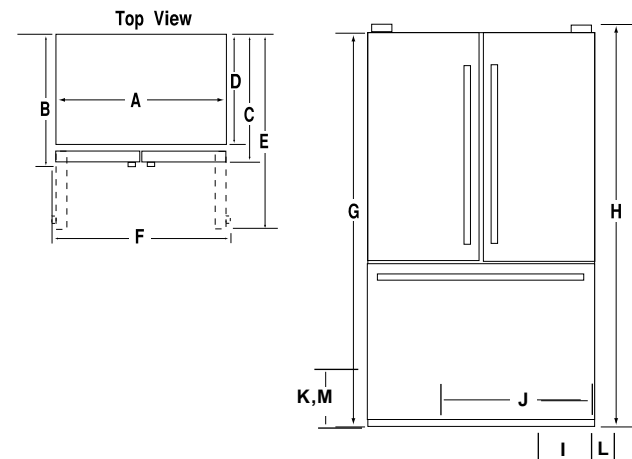

IMPORTANT: Because of continuing product improvements, Jenn-Air reserves the right to change specifications without notice. Dimensional specifications are provided for planning purposes only. For complete details see installation instructions packed with product before selecting cabinetry, making cutouts or beginning installation.

G	8
H	5

Dishwasher Cabinet Opening

1. Preferred drain area.
2. Keep back free of drain, water & electrical supply.
3. Minimum 32" drain loop, 1/2" minimum. Floor drains require a siphon break.
4. Electrical and plumbing should meet all local and national codes.
5. Electrical and water supplies should enter cabinet opening on the floor, or through the back or side walls, as shown in the shaded portion of drawing.
6. Connections preferably located toward left side of dishwasher. Care should be taken to route water and electrical away from motor and blower (if equipped).
7. When dishwasher is installed in or near a corner, allow enough room for the door to open without interfering with cabinet drawers or hardware.

**IMPORTANT: Cutout Dimensions
Are Critical. Refer to installation
instructions packaged with product
BEFORE making cutouts.**

1. Without top trim strip.
2. With top trim strip.
3. Add 1 1/4" to depth for Pro-Style™ timer dial.

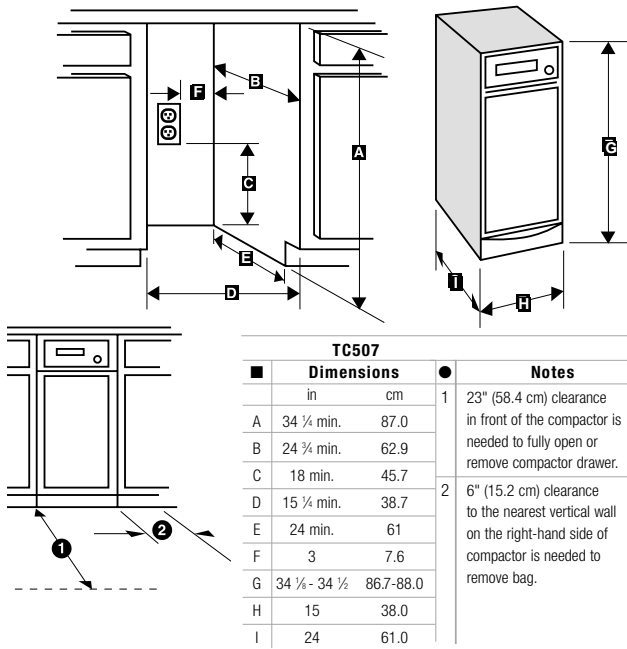

Note: For Decorator Panel Dimensions, see page 133.

- Feature included.
- A. Dimension with top strip is 33 3/4 - 35 1/4. Overall height without top strip is 33 1/2 min. to 35 1/4 max.
- B. Add 1-1/4" to depth for Pro-Style timer dial.
- C. Electric supply (all models): 115 VAC, 50 Hz. All models UL listed. 3/8" female pipe thread connection is attached to water valve. Water should be 120° - 140° F as it enters the dishwasher.
- D. Automatic temperature control.
- E. Energy Star models exceed Federal Energy Efficiency Standards by 13% or more.

All Jenn-Air® appliances are appropriately UL, AGA, CSA or CGA approved.

TRASH COMPACTOR

TRASH COMPACTOR DIMENSION DIAGRAMS

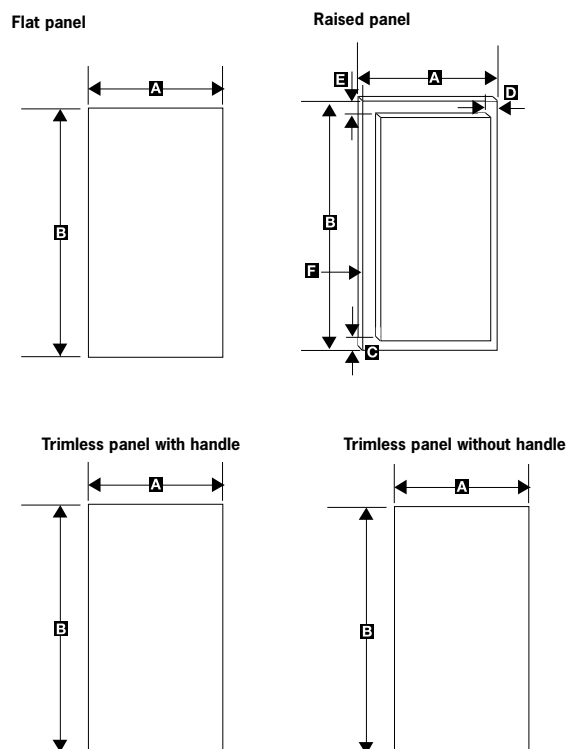

Grounded electrical outlet must be a minimum of 3 in. (7.6 cm) away from surrounding cabinets or nearby walls as shown. It can be placed either to the left or right side of the product.

TRIM KIT PANEL DIMENSIONS

CUSTOM PANEL INSTALLATION (USING TRIM KIT TCD B/W/Q)

	in	cm
A	14 5/8	37.2
B	23 13/16	60.5
C	5/16	0.8
D ³	5/16	0.8
E	1 1/4	3.2
F ⁴	7/32	0.5

IMPORTANT: Cutout Dimensions Are Critical. Refer to installation instructions packaged with product BEFORE making cutouts.

Notes:

1. Raised panel or decorative trim
2. Outer section of panel
3. Both sides
4. For a flat panel, a 7/32" thick panel is required. For a raised panel, the outer section of panel must be 7/32" thick to fit into trim.

CUSTOM PANEL INSTALLATION (TRIMLESS PANEL WITH HANDLE)

	in	cm
A	15	38.1
B	23 13/16	60.5

Notes: The panel should be 1/2" to 5/8" thick. A thicker panel may need rounded front corners and a cut-out for access to the handle.

CUSTOM PANEL INSTALLATION (TRIMLESS PANEL WITHOUT HANDLE)

	in	cm
A	15	38.1
B	25	63.5

Note: The panel should be 1/2" thick.

Refer to Use & Care Guide shipped with product for complete panel installation instructions.

IMPORTANT: Because of continuing product improvements, Jenn-Air reserves the right to change specifications without notice. Dimensional specifications are provided for planning purposes only. For complete details see installation instructions packed with product before selecting cabinetry, making cutouts or beginning installation.

- Feature included.
- A. Ducting configurations and length can affect airflow ratings. Ratings shown are based on hoods with correctly installed ducting.
- B. No conversion kit is required for ductless installation for JXT5836 and JXT5830 model hoods. Order carbon filters shown that snap into the hood. For UXT5436, UXT5236, UXT5430 and UXT5230 model hoods order kits and replacement carbon filters shown for ductless installation.

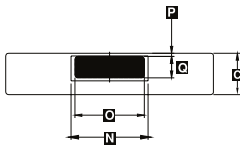

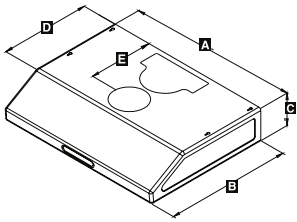

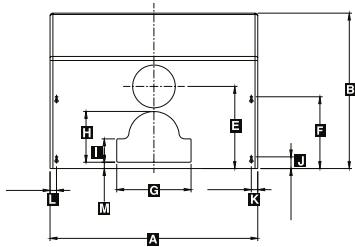

IMPORTANT: Cutout Dimensions Are Critical. Refer to installation instructions packaged with product BEFORE making cutouts.

IMPORTANT: Because of continuing product improvements, Jenn-Air reserves the right to change specifications without notice. Dimensional specifications are provided for planning purposes only. For complete details see installation instructions packed with product before selecting cabinetry, making cutouts or beginning installation.

DISHWASHER DECORATOR PANEL INSTALLATION (WOOD)

Models JDB2100, JDB1100

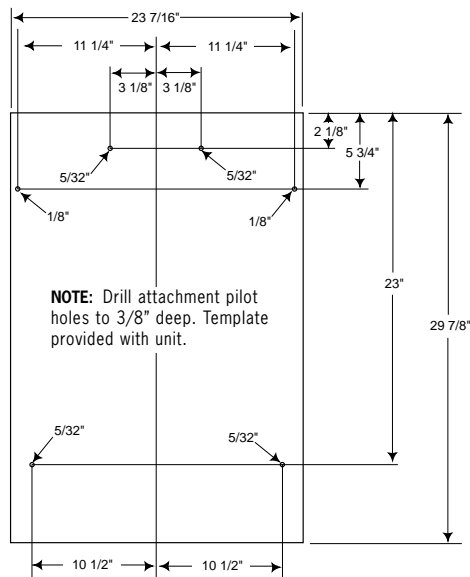

Construction of Wood Panel

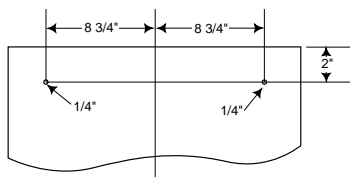

Door Panel Dimensions			
	in	cm	
A	23 7/8	59.53	
B	29 1/8	75.88	
C	3/4	1.9	

NOTE: Maximum weight of custom panel is 16 lbs.

Attachment Locations for Wood Panel

For Handle Provided with Dishwasher

For Custom Handle

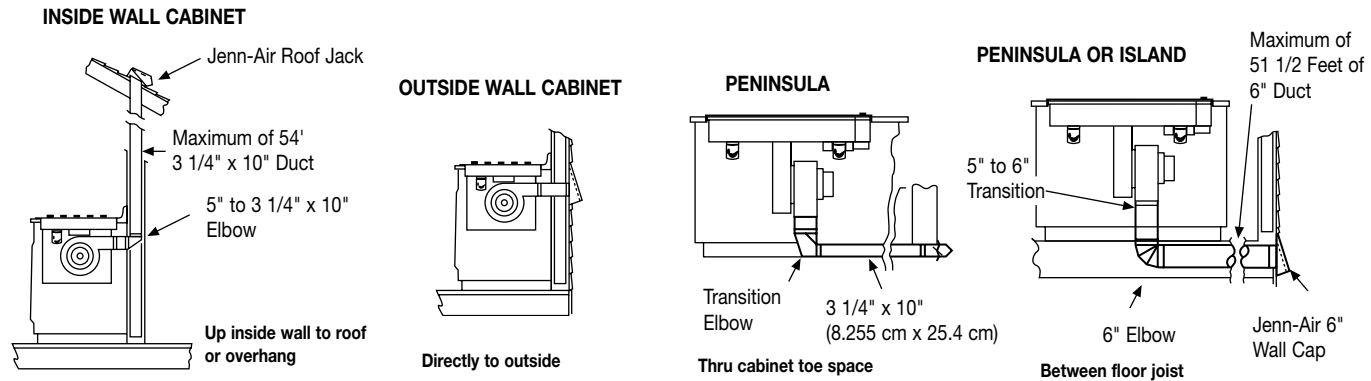

If using any type of custom handle, it would be best to contact a professional cabinetmaker. All fasteners **MUST** be flush with the back of the panel to ensure a proper fit, e.g. countersink a flathead screw.

NOTE: Custom handle must be centered on custom panel. Fastener thread length for a front mounted custom handle should be no longer than thickness of custom panel.

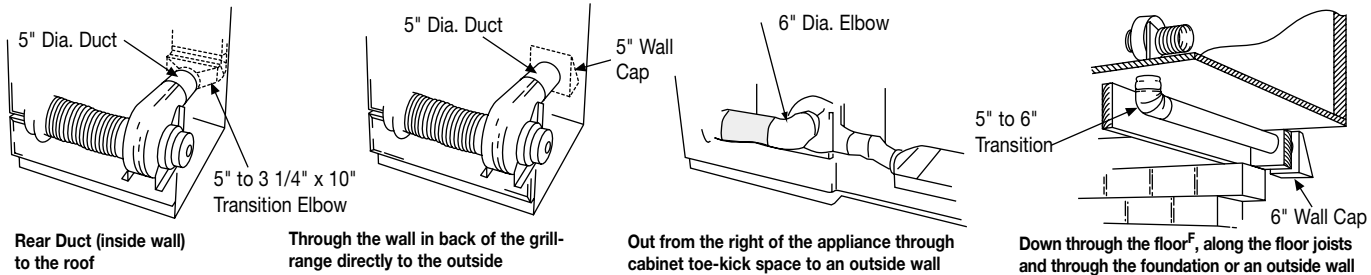

IMPORTANT: Because of continuing product improvements, Jenn-Air reserves the right to change specifications without notice. Dimensional specifications are provided for planning purposes only. For complete details see installation instructions packed with product before selecting cabinetry, making cutouts or beginning installation.

DUCTING DATA DOWNDRAFT-RANGES AND COOKTOPS

TYPICAL COOKTOP DUCT ARRANGEMENTS

TYPICAL GRILL-RANGE DUCT ARRANGEMENTS

Duct Length Recommendations ^A (Maximum) ^B		
	5" Diameter ^C	6" Diameter or 3 1/4" x 10" ^C
All Electric ^D	10'	60'
All Gas ^E	10'	60'

The Long Duct Run

With Jenn-Air's powerful blower, Jenn-Air downdraft grill-ranges and grill-range cooktops can vent up to the equivalent of 60 feet.

Here's how it works.

For duct runs equivalent to 30' or less, install as received. For duct runs equivalent to 31' to 60', simply snap out the restrictor ring on the blower inlet housing. See Installation Instructions for specific information.

Grill-Range/Cooktop Ducting Accessories

Model A403 Surface Wall Cap—Single damper; down discharge. Fits 3-1/4" x 10" duct.

Model A405 Surface Wall Cap—Single spring-loaded damper; down discharge. Fits 5" diameter duct. Requires opening 5-1/2" in diameter.

Model A406 Surface Wall Cap—Single spring-loaded damper; down discharge. Fits 6" diameter duct. Requires opening 6-1/2" in diameter.

Model A456 Transition—5" to 6" round duct.

Important: Because of continuing product improvements, Jenn-Air reserves the right to change specifications without notice. Dimensional specifications are provided for planning purposes only. For complete details see installation instructions packed with product before selecting cabinetry, making cutouts or beginning installation.

Notes:

A. For venting up to the equivalent of 60', use standard steel ducting and elbows.

B. IMPORTANT: See installation instructions shipped with product before selecting island cabinetry, making cutouts or beginning installation. For best performance, it is suggested that no more than three 90 degree elbows be used with 6" or 3 1/4" x 10" duct. Each foot of metal flex duct counts as two feet of rigid metal duct. Each flex elbow counts as two metal elbows. For longer duct runs of 31' to 60', the restrictor ring on the blower inlet housing must be removed. 6" round or 3 1/4" x 10" duct must be used for ducting beyond 10' (up to 60'). Failure to follow ducting recommendations or use recommended ducting accessories may result in substandard performance.

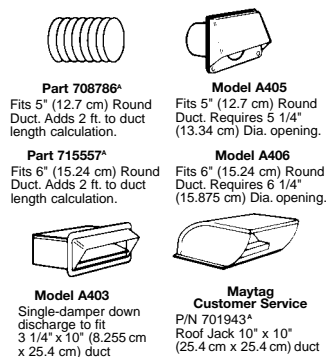

C. Count each 90 degree elbow as 5' of duct.

D. When venting electric ranges or cooktops, 5" diameter round duct may be used to vent straight out the back of appliance and directly through the wall for runs of 10' or less.

E. When venting dual-fuel ranges and gas cooktops, 5" diameter round duct must be used for runs of 10' or less.

F. When installing through a slab, it is essential that the system be properly calculated, designed and installed before the house is built, when the slab is poured.

WALL CAPS/ THERMAL BREAKS

A. The above model numbers may be ordered through your authorized service dealer.

Do	Don't
Use 5" (12.7 cm), 6" (15.24 cm), or 3 1/4" x 10" (8.255 cm x 25.4 cm) pipe as recommended for your model	Use 4" (10.16 cm) dryer vent pipe or flex duct*
Use recommended wall caps	Use laundry-type wall cap
Use no more than one 90° elbow with five inch (12.7 cm) duct or three 90° elbows with six inch (15.2 cm) or 3 1/4" x 10" (8.255 cm x 25.4 cm) duct	Overrun your system with too many bends and turns
Duct system to the outside	Vent into an attic or crawl space, walls and concealed space of building
Mix 6" (15.24 cm) duct and 3 1/4" x 10" duct (8.255 cm x 25.4 cm) within the same system if necessary	Reduce back to 5" (12.7 cm) system after using 6" (15.24 cm) or 3 1/4" x 10" (8.255 cm x 25.4 cm)
Tape all joints securely with several wraps of tape	Butt joints, always use male-female connections in direction of flow
Use one unit per duct system	Exhaust more than one unit into a single system

* Although not recommended, 5" or 6" metal flex duct may be used. Due to the irregular surface of flexible ducting, each foot of flex duct counts as two (2) feet of regular metal duct. Also each elbow made in flex duct would count twice as much as standard metal elbow. The best idea with flexible ducting is to keep it as short and as straight as possible.

PLATINUM WARRANTY*

All Jenn-Air® appliances carry a minimum warranty of 1st year free parts and labor, plus a 2nd year free parts only. Warranties begin on the date of purchase. The chart below details specific warranties by product category. The years after date of original purchase are listed across the top.

*Warranty stated covers only those models specified in this catalog. See a Jenn-Air® dealer for model specific warranty information.

OWNER'S RESPONSIBILITIES

The customer has certain responsibilities which must be satisfied to qualify for coverage under these warranties. For all products, the owner is responsible for providing normal care and maintenance in accordance with the Use & Care Instructions, providing proof of purchase on request, proper installation and making the appliance reasonably accessible for service. For refrigerators, the owner will pay for service calls or trip charges to analyze sealed system defects, including related labor costs and mileage and/or transportation, if required, for the service second through fifth years.

WARRANTY SERVICE

Under the full warranty, service must be performed by an Authorized Jenn-Air Service Contractor. To obtain service, contact the dealer from whom the unit was purchased, an authorized Service Contractor, or contact Jenn-Air Customer Assistance, c/o Maytag Appliances Sales Company, P.O. Box 2370, Cleveland, TN 37320, 1-800-JENN-AIR (U.S. and Ontario) or 1-423-472-3333. Please include model number, serial number and date of original retail purchase in all correspondence. Service will be provided during normal business hours. All replacement parts assume the unused portion of this warranty. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

CANADIAN RESIDENTS

This warranty covers only an appliance installed in Canada that has been certified to a National Standard of Canada unless the appliance is brought into Canada due to transfer of residence from the United States to Canada.
