Power your BlackVue In Parking Mode

with Power Magic Pro or Power Magic Battery Pack.

Rest easy, knowing that your car is being monitored while you are away. BlackVue dashcams automatically switches to Parking Mode to monitor your parked vehicle, but only writes to the memory card when something happens (motion or impact detected), which has two benefits:

- Less chance for important files to be overwritten during long Parking Mode sessions.
- Extended memory card lifespan in the long run.

Power Magic Battery Pack (B-112)

Parking Mode Made Easy

Enjoy your dashcam's Parking Mode while saving your vehicle's battery.

Easy and simple installation

No hardwiring required.

Simply plugs into your vehicle's accessory (cigar lighter) power socket.

Hassle-free operation

Recharges while driving. Powers your dashcam while parked.
1 hour charge / 12 hours power*.

(*) Based on power consumption of DR650S-1CH

CHarge Any USB Accessory

- 1 female accessory (cigar lighter) power socket for your dashcam.
- 2 USB (5V) ports to power a phone, mobile hotspot, etc.
The B-112 provides enough power to charge most electronic accessories (not only phones but also larger battery accessories like tablets).
