TE-BPLTC IBEAM BEHIND LICENSE PLATE CAMERA, ACTIVE LED PARKING LINE CAMERA

 SALES 800-221-0932

PRODUCT OVERVIEW

Exclusively from iBeam, this active LED parking line camera installs easily behind vehicle rear license plate and is universal to fit any vehicle. Sleek water resistant housing allows camera to hover over the license plate for optimal 170 degree viewing angle. While vehicle is in reverse, display shows active parking lines that move while vehicle is turning to help driver avoid rear obstacles and park with ease. Parking lines automatically straighten when vehicle is no longer turning. Four built-in LED's provide more light than IR setups, for better visibility at night. Ideal for larger vehicles, this behind license plate camera helps drivers to gauge the trajectory of their car when reversing into tight spaces, and helps to guide them into a space.

- Active parking lines move when vehicle is turning while in reverse to help avoid objects
- Parking lines automatically straighten when vehicle is no longer turning in reverse
- 4 LED's provide more light than IR when using at night (LED's come on when camera has power)
- 170 Degree viewing angle
- Water-resistant housing
- Mounts behind vehicle license plate
- Camera hovers over vehicle license plate
