

DRI-TEC® TECHNOLOGY

LEVEL SERIES PERFORMANCE® PILLOWS

Curved to fit you, the Level Performance® Pillow series has a crescent shape design to cradle your head, neck and shoulders. Our latest Dri-Tec® moisture wicking performance fabric with a hexagonal pattern and greater loft facilitates air flow around your sleep environment.

Features:

- **Dri-Tec®** moisture wicking cover keeps you dry and comfortable while you sleep. Eco-friendly fibers have been added for an extra soft touch and greater comfort.
- Patented **Air-X®** ventilated side panels enhance air flow throughout the pillow, moving excess heat away from your head, neck and shoulders.
- Filter fabric behind the **Air-X®** panels helps prevent allergens and dander from entering the pillow core.
- Our unique ergo-molding **React®** blend core is a combination of foam cubes and silk-feel fibers to create support for your head, neck, and shoulders that conforms without push back, eliminate pillow bounce to improve your sleep.
- Zip-off cover is machine washable in cold water, gentle cycle.
- Personal Performance Size: 20"h x 26"w
