

DRI-TEC® TECHNOLOGY

## BALANCE SERIES PERFORMANCE® PILLOWS

Our best-selling Balance series now features a zip-off washable cover for easy care and cleaning. Powered by Dri-Tec® and Air-X® technologies, our best-selling Balance series is available in a series of 4 Pillow ID sizes for personalized fit.

### Features:

- **Dri-Tec®** moisture wicking fabric surface helps you sleep dry and comfortable throughout the night. Your body needs to drop 2 degrees at night for proper rejuvenation and recovery. Reducing heat trapped next to your body helps you sleep more restfully.
- Patented **Air-X®** ventilated panels enhance air flow throughout the pillow, moving away excess heat from your head, neck and shoulders.
- Filter fabric behind the **Air-X®** panels prevents allergens and dander from entering the pillow core.
- Blended **Boost®** foam structure provides dynamic, smooth motion performance that eliminates pillow bounce and helps ensure deep sleep.
- Zip-off cover is machine washable in cold water, gentle cycle.
- Personal Performance Size: 20”h x 26”w
