FABRIC/QUILT

- Ultra Conforming Knit with Tencel®
- FR fibers
- Plush quilting foam
- Knit backing

COMFORT LAYERS

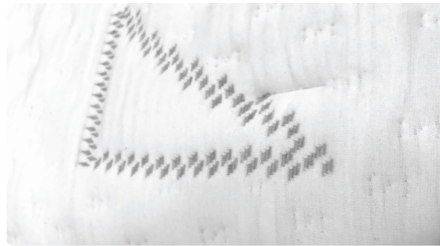

- Luma SilverTech™ Cool Memory Foam
 - Plush Aireluxe™ Foam
 - Plush slow recovery visco
 - Micro coils 19 gauge
- Q 2,080 | K 2,652

SUPPORT SYSTEM

- High density encased perimeter support
 - Support-flex™ tempered 15 gauge individually wrapped coils
 - Full perimeter coil count
- Q 830 | K 992

FOUNDATION

- Working support provided by V-shaped semi-flex grid
- 9" or 5" profiles available

TENCEL® PANEL:

Our ultra conforming knit panel, made with breathable Tencel®, is eco-friendly, flexible and incredibly soft to the touch.

LUMA SILVERTECH™ COOL MEMORY FOAM:

This unique technology combines nanoparticles of silver and aluminum for long lasting, efficient thermal controlled comfort in a rapid recovery breathable memory foam. This CertiPur-US certified feature enables optimum comfort and cleanliness.

AIRELUXE™ FOAM:

An incredibly durable and resilient foam which conforms to your body and aligns your spine to minimize sleep disturbances.

SLOW RECOVERY VISCO FOAM:

Exceptionally durable, this foam supports posture and relieves pressure points. CertiPur-US certified, it conforms, releases heat rapidly and recovers quickly to its original shape.

MICRO COILS:

Layers in combination of 19 gauge tiny coils add support and stability to the mattress as well as improve air flow for an optimized comfort.
