### ICE & WATER - AUTOMATIC DEFROST BOTTOM FREEZER - R134a

**IMPORTANT SAFETY NOTE**  
 The information provided herein is designed to assist qualified repair personnel only. Untrained persons should not attempt to make repairs due to the possibility of electrical shock. Disconnect power cord before servicing this appliance.  
**IMPORTANT**  
 If any green grounding wires are removed during servicing, they must be returned to their original position and properly secured.

**IMPORTANT: PLEASE RETURN THIS SHEET TO ITS ORIGINAL LOCATION.**

SYSTEM DIAGNOSTIC MODE				
<b>Activate:</b>	Press FZ + (^) and FZ- (v) for 10 secs			
<b>Deactivate:</b>	Press FZ + (^) and FZ- (v) for 10 secs			
FZ Display	Test	Activation/Deactivation	FF Display	Passing result
--	First Screen	--		All LEDs on UI illuminated.
--	Second Screen	--		Blank UI display, no LEDs illuminated.
2	Freezer Defrost Heater	Press Cube button	on, of, Temperature	Freezer Defrost Sensor Temp displayed in FF display. Increase in temp should be noticed.
8	Main Water Valve	Press Cube button	on, of	"on" when on and "of" when off. ***Valve will not shut off automatically. Test has to be turned off with Cube button.
11	Cube/Crush Solenoid	Press Cube button	on, of	FF display shows "on" when on and "of" when off. Cube solenoid will activate. Do not leave on for more than 1 minute.
53	Dispenser Water Valve	Press Cube button	on, of	"on" when on and "of" when off. ***Valve will not shut off automatically. Test has to be turned off with Cube button.
56	Ice Maker Water Valve	Press Cube button	on, of	"on" when on and "of" when off. ***Valve will not shut off automatically. Test has to be turned off with Cube button.
71	Fresh Food Defrost Heater	Press Cube button	on, of, Temperature	Fresh Food Defrost Sensor Temp displayed in FF display. Increase in temp should be noticed.
72	Fresh Food IM Defrost Heater	Press Cube button	on, of, Temperature	Fresh Food IM Defrost Sensor Temp displayed in FF display. Increase in temp should be noticed.
74	VCZ Balance Heater	Press Cube button	on, of	"on" when on and "of" when off. Maximum run time of 5 minutes for this test.
79	Fill Tube Heater	Press Cube button	on, of	"on" when on and "of" when off. Maximum run time of 5 minutes for this test.
10	Auger Motor	Press Cube button	on, of	"on" when on and "of" when off.
13	Fresh Food Light	Press Cube button	on, of	"on" when on and "of" when off. Open Door to check status of light.
14	VCZ Light	Press Cube button	on, of	"on" when on and "of" when off. Open Door to check status of light.
15	Freezer Evaporator Fan	Press Cube button	on, Mi, of	Fan runs at 3 speeds: Max speed when "on", medium speed when "Mi", and stopped when "of".
17	VCZ Fan	Press Cube button	on, Mi, of	Fan runs at 3 speeds: Max speed when "on", medium speed when "Mi", and stopped when "of".
18	Condenser Fan	Press Cube button	on, Mi, of	Fan runs at 3 speeds: Max speed when "on", medium speed when "Mi", and stopped when "of".
20	Freezer Light	Press Cube button	on, of	"on" when on and "of" when off. Open Door to check status of light.
38	VCC Compressor	Press Cube button	on, of	"on" at full speed when on and "of" when off.
47	Ice Chute Heater	Press Cube button	on, of	"on" when on and "of" when off.
62	Ice Maker Evap Fan	Press Cube button	on, of	"on" when on and "of" when off.
63	Flip Mullion Heater (DC)	Press Cube button	on, of	"on" when on and "of" when off.
66	Dispenser Light	Press Cube button	on, of	"on" when on and "of" when off.
70	Fresh Food Evap Fan	Press Cube button	on, Mi, of	Fan runs at 3 speeds: Max speed when "on", medium speed when "Mi", and stopped when "of".
76	VCZ Damper Heater	Press Cube button	on, of	"on" when on and "of" when off.
77	VCZ Damper	Press Cube button	OP, CL, Flashing "1"	When activated, the freezer evaporator fan will run at high speed. "OP" when damper is open. "CL" when damper is closed. "1" will flash when damper is moving.
36	Ice Chute Flapper Motor	Press Cube button	OP, CL, Flashing "1"	"OP" when chute door is open. "CL" when chute door is closed. "1" will flash when chute door is moving. "ER" will display if the door does not open or close.
50	Ice Maker Harvest Test	Press Cube button	"Go", Flashing "1"	Remove bucket to see rotation of tray. "Go" will be shown in the FF display when the tray is in the horizontal (home) position. A Flashing "1" will be displayed when the tray is moving. If an error is detected "ER" will be displayed.
78	Ice Maker Bail Arm Test	Press Cube button	"Em", "Fu", Flashing "1"	Remove bucket to test. Allow bail arm to drop, "Em" will be displayed when tray returns to horizontal (home) position. Hold bail arm up/keep from dropping. "Fu" will be displayed when tray returns to horizontal (home) position. A Flashing "1" will be displayed when the tray is moving. "Er" will be displayed if an error is detected.
61	Stepper Motor Valve	Press Cube button	"03", "00", "01", "02", Flashing "1", Temperature	FF display will show the temperature of the corresponding evaporator defrost sensor. A drop in temperature should be noted. "03" is the OP position. All evaporators should have refrigerant flow and the FF defrost sensor temp will be displayed. "00" is the CL position. The IM defrost sensor temperature will be shown in the FF display. Temperature should not drop--possibly increase. "01" is the IM/FZ evaporator position. The IM defrost sensor temperature will be shown in the FF display. A drop in temperature should be noted. "02" is the FF/IM/FZ evaporator position. The FF defrost sensor will be shown in the FF display. A drop in temperature should be noted. A flashing "1" will be shown in the FF display while the valve is moving from position to position.
23	Fresh Food Door Switch	Open/Close the Door	"CL", "OP"	When the FF door is opened, an "OP" will be shown in the FF display. When the FF door is closed, a "CL" will be shown in the FF display.
24	Freezer Drawer Switch	Open/Close the Door	"CL", "OP"	When the FF door is opened, an "OP" will be shown in the FF display. When the FF door is closed, a "CL" will be shown in the FF display.
25	VCZ Drawer Switch	Open/Close the Door	"CL", "OP"	When the FF door is opened, an "OP" will be shown in the FF display. When the FF door is closed, a "CL" will be shown in the FF display.
28	Dispenser Paddle	Press the Dispenser Paddle	on, of	When the paddle is pressed, "on" will be displayed in the FF display. When the paddle is released, or not pressed, "of" will be displayed in the FF display.
29	Fresh Food Sensor	--	current temperature, "OP", "SH"	No activation needed. FF display will show current sensor temperature. "OP" will show if the sensor is open. "SH" will show if the sensor is shorted.
30	Freezer Sensor	--	current temperature, "OP", "SH"	No activation needed. FF display will show current sensor temperature. "OP" will show if the sensor is open. "SH" will show if the sensor is shorted.
31	Fresh Food Defrost Sensor	--	current temperature, "OP", "SH"	No activation needed. Fresh food display will show current sensor temperature. "OP" will show if the sensor is open. "SH" will show if the sensor is shorted.
32	VCZ Sensor	--	current temperature, "OP", "SH"	No activation needed. FF display will show current sensor temperature. "OP" will show if the sensor is open. "SH" will show if the sensor is shorted.
33	Ambient Temp Sensor	--	current temperature, "OP", "SH"	No activation needed. FF display will show current sensor temperature. "OP" will show if the sensor is open. "SH" will show if the sensor is shorted.
39	Freezer Defrost Sensor	--	current temperature, "OP", "SH"	No activation needed. FF display will show current sensor temperature. "OP" will show if the sensor is open. "SH" will show if the sensor is shorted.
45	Ice Maker Tray Sensor	--	current temperature, "OP", "SH"	No activation needed. FF display will show current sensor temperature. "OP" will show if the sensor is open. "SH" will show if the sensor is shorted.
68	Ice Maker Defrost Sensor	--	current temperature, "OP", "SH"	No activation needed. FF display will show current sensor temperature. "OP" will show if the sensor is open. "SH" will show if the sensor is shorted.
64	Humidity Sensor	--	current humidity, "OP", "SH"	No activation needed. FF display will show current relative humidity as a percentage. "OP" will show if the sensor is open. "SH" will show if the sensor is shorted.
--	No Test	--		
a-	Main Board Software Parameters	--	software revision digits	The current software revision will be shown simultaneously on both displays. For example: 0049953C will be shown as 0-0, 0-0, 4-4, 9-9, 9-9, 5-5, 3-3, C-C (FZ-FF).
b-	Main Board Firmware Version	--	firmware revision digits	The current firmware revision will be shown simultaneously on both displays. For example: JHB10G00 will be shown as J-J, H-H, B-B, 1-1, 0-0, G-G, 0-0, 0-0 (FZ-FF).
c-	Dispenser UI Firmware Version	--	firmware revision digits	The current firmware revision will be shown simultaneously on both displays. For example: LHFE0700 will be shown as L-L, H-H, F-F, E-E, 0-0, 7-7, 0-0, 0-0 (FZ-FF).
d-	VCZ UI Firmware Version	--	firmware revision digits	The current firmware revision will be shown simultaneously on both displays. For example: MHFE0600 will be shown as M-M, H-H, F-F, E-E, 0-0, 6-6, 0-0, 0-0 (FZ-FF).
