Top Control Dishwashers with TrueSteam® and QuadWash™

Leave nothing behind with powerful cleaning, virtually spotless drying and a PrintProof™ finish

Only LG TrueSteam® and QuadWash™ technologies clean dishes the first time to leave no trace behind. Steam at the start of the cycle penetrates caked-on food before four Multi-Motion spray arms rotate while spinning to reach every nook and cranny. A second blast of steam helps eliminate water spots during drying—and the need for hand wiping. Even the dishwasher exterior is spotless, thanks to the fingerprint and smudge resistant PrintProof™ finish.

Cleaning Power

GET A SPOTLESS CLEAN THE FIRST TIME

- TrueSteam® in the wash cycle penetrates and dissolves tough caked-on food but is gentle enough for your favorite wine glasses
- With four spray arms instead of just two, QuadWash™ uses Multi-Motion arms that rotate back and forth while spinning to power-clean dishes from multiple angles throughout the entire cycle
- Saves the time and headache of having to prewash or rewash dishes by hand

TrueSteam® QuadWash™

Drying Performance

REDUCE WATER SPOTS WITH REAL STEAM

- The enhanced drying of TrueSteam® technology means 60% fewer water spots*—and no more having to wipe spotty glasses by hand
- Four powerful nozzles are centrally located on the door to allow the steam to reach all areas of the dishwasher

*Percent in water spot reduction compared to comparable LG non-steam dishwasher on delicate wash cycle. Results may vary by model. Results based on test with LG LDF7774ST as of Feb. 2018.
