

Dynamic Dry™ and TrueSteam®—ultimate drying plus enhanced cleaning that’s certified to sanitize

Creating a dynamic table begins with sparkling dishes and glassware—the kind only Dynamic Dry™ enhanced with TrueSteam® can deliver. From thoroughly drying to helping eliminate water spots, steam in the drying cycle lets you throw in the towel and stop drying by hand. TrueSteam® at the start of the cycle penetrates caked-on foods, working with QuadWash™ technology to leave virtually no trace behind. Only LG offers two separate blasts of real steam for better cleaning and drying.

QuadWash™ Cleaning Power

GET DISHES CLEAN THE FIRST TIME

- Saves the time and headache of having to prewash or rewash dishes by hand

NSF Certified

CERTIFIED TO SANITIZE

- Clean and sanitize your dishes with confidence—all LG dishwashers are certified by the National Sanitization Foundation (NSF)
- Just select the Steam cycle to reduce bacteria found on dishes by 99.999% and reach a final rinse temperature greater than 150°F*

*LG TrueSteam® dishwashers certified by NSF achieve a minimum 99.999 percent reduction of bacteria when operated on the Steam cycle.
