

MINI AND MIGHTY.™

Dime

\ True Wireless Earbuds

KEY SELLING POINTS

TRUE WIRELESS FREEDOM

Dime provides True Wireless freedom at an entry-level price point — freedom from snagging, yanking, and tangling wires. A microphone in each earbud allows the user to use each bud separately without losing the ability to take calls.

SIMPLIFY YOUR LISTENING

Dime is easy to use. It automatically turns on and enters pairing mode the first time it's removed from the charging case. After that, Dime automatically pairs with the last device used. Call, track and volume are controlled by tapping a single button on the earbud.

FEARLESS USE

Dime is built to last. It boasts IPX4 sweat- and water-resistance, so it can handle any adventure without missing a beat. A lanyard saves the charge case and its precious cargo from drops. Plus, Dime is backed by our Fearless Use Promise — if an earbud or case is lost or broken, we'll help you replace it.

SUPREME SOUND

At Skullcandy, we specialize in great sound. In combination with our noise-isolating fit, Dime features microphones and drivers that have been selected and expertly tuned to deliver the best audio quality for any music genre or media. That's Supreme Sound.
