

# GETTING Started WITH YOUR

## FRIGIDAIRE® ELECTRIC RANGE

### BEFORE YOU START

#### Set up your oven

Make sure your oven racks are in place prior to operating the range. Check out your Use & Care Guide.

#### Set your clock

It's easy! Press SET CLOCK, then enter the time using **▲** and **▼** keys.

#### Before cooking for the first time

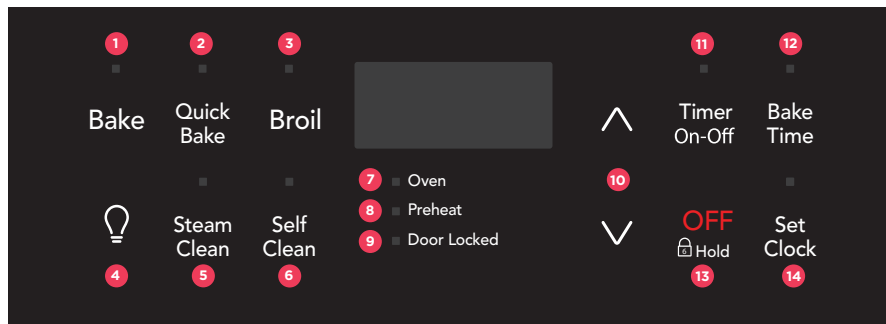

To get your oven ready to go, set your oven to bake at 350°F for about 30 minutes. As the range gets settled in your home, it's normal to experience some noises and smoke.

### YOU'RE IN CONTROL

#### Your oven controls

Using your oven starts with just pressing the keys on your oven control. Temperature and cooking modes will appear in the display as you go.

1. BAKE is for foods that need heat to rise and move gently in the oven.
2. QUICK BAKE uses a fan to circulate the oven's heat uniformly and continuously around the oven.
3. BROIL is for broiling and grilling foods under direct, high heat.
4. OVEN LIGHT turns the interior light on and off at a touch.
5. STEAM CLEAN offers a time saving method to assist in the routine cleaning of small and light soils.
6. SELF CLEAN sets a self-clean cycle.
7. OVEN ON INDICATOR LIGHT glows each time the oven turns on to maintain the set oven temperature.
8. PREHEAT LIGHT glows when the oven is preheating or if the desired temperature is reset higher than the actual oven temperature.
9. DOOR LOCKED will flash when the oven door locks and unlocks.
10. UP AND DOWN ARROW KEYS set oven temperature, bake time, start time, clean time, and setting or adjusting the clock and minute timer.
11. TIMER ON-OFF is used to set or cancel the minute timer.
12. BAKE TIME enters the length of baking time desired.
13. OFF turns off all cooking functions.
14. SET CLOCK is used to set the time of day.

### REMEMBER

- Do not use aluminum foil or any other materials to line any part of the oven.
- All oven racks should be removed before a self clean operation.
- Do not add bleach, ammonia, oven cleaner, or any other abrasive household cleaners to the water used for Steam Clean.

## QUICK CARE

### A little love goes a long way

Use a ceramic cooktop cleaning cream before cooking for the first time to protect your cooktop from scratches.

Quick ongoing care keeps your range working great for years to come! Clean with warm water and mild soap, or try our line of Frigidaire™ ReadyClean cleaners, available on our website. Refer to your Use & Care Guide for detailed instructions on how to clean your ceramic cooktop.

### Setting a self-clean cycle is easy

1. Remove the racks from your oven and clean by hand. Make sure you close the oven door.
2. Press SELF CLEAN.
3. Press **▲** until 3:00 appears in the display for a 3 hour self clean process, or push **▼** until 2:00 appears in the display for a 2 hour self clean process.
4. After a few seconds you'll hear the door lock. Be careful around the oven during and after cleaning, things can get hot!

## FAQs

### Why does my range make noises when I'm cooking?

Temp changes during preheat and cool-down can make parts of the range expand and contract. The controls click as they work to create even cooking temps. Different fans run to heat up the oven or cool down different parts of oven, even when it's off. These sounds are normal.

### This oven doesn't work like my old one. What's wrong?

We know adjustment isn't always easy. As you get used to a new range, you may need to test and adjust cooking times and temperatures for recipes. Consult your Use & Care Guide for detailed instructions on how to adjust temperature or call us if you need help!

### Why does my oven smoke when I use the broil setting?

Broiling is direct heat cooking and will produce some smoke. If smoke is excessive, place food further away from the element. Watch food to prevent burning.

Find more troubleshooting tips in the back of your Use & Care Guide.

## LET'S MAKE IT OFFICIAL!

Take the first step to becoming a part of the Frigidaire family by registering your new range.

Look for the Photoregister<sup>SM</sup> icon on your registration card.
