

HTA5000

5.1.2ch Dolby Atmos[®] Soundbar

Take your entertainment to a new realm of audio immersion. The HT-A5000 envelops you in authentic 5.1.2ch surround sound with up-firing speakers, side beam tweeters, built-in subwoofers, and advanced technologies that bring you Dolby Atmos[®] and DTS:X[®] audio as well as 8K¹ and 4K 120² video passthrough. Be immersed in the scene with action happening above and all around you.

Bullets

- Fully enjoy the thrill of Dolby Atmos[®] and DTS:X[®] with Vertical Surround Engine and S-Force Pro Front Surround
- Sound Field Optimization calibrates to your environment for easy set up
- Immersive Audio Enhancement converts regular audio to near 5.1.2ch
- Vivid visuals and responsive game play with 8K¹ and 4K/120² passthrough
- Immerse yourself in supreme music quality with Hi-Res Audio and 360 Reality Audio⁷
- Customize your setup with two subwoofer choices and an optional rear speaker set
- Pairs with BRAVIA XR TVs for easy access to soundbar controls and Acoustic Center Sync⁴
- Premium omni-directional block design and wireless tv connection⁹
- Stream your way with Bluetooth⁹, Wi-Fi, Chromecast built-in¹¹, Spotify Connect, and Apple AirPlay^{2,8,10}
- Integrates with your connected devices with Google Assistant⁵ and Amazon Alexa⁶

Features

Immersive surround sound from our premium soundbar

Utilizing a combination of technology such as Vertical Surround Engine and S-Force Pro Front Surround, the HT-A5000 offers immersive sound that comes from all around you. Dolby Atmos[®] and DTS:X[®] lend a more realistic, multi-dimensional sound to your content.

Calibrate sound to suit your room

Sound Field Optimization calibrates the HT-A5000 to your room environment to provide the best sound. Even if you move the soundbar from the main room to a bedroom, the HT-A5000 will adapt the sound to fit your space.

High Quality Audio

The 5.1.2ch HT-A5000 is packed with class leading technology for all-dimensional immersive sound and voice clarity. X-Balanced speaker units minimize distortion while the up-firing speakers and beam tweeters fill the room to give an ultra-immersive listening experience. Built-in subwoofers provide an additional boost to low end frequencies.

High quality video passthrough

The HT-A5000 is equipped with 8K¹ and 4K/120 passthrough² to support the latest video formats including Dolby Vision³. From vivid visuals to smoother, clearer movement for responsive video game play, the HT-A5000 has you covered.

Immerse yourself in supreme music quality

Enjoy music the way the artists truly intended with High-Resolution Audio for crystal clear precision or discover a new way of listening with 360 Reality Audio⁷ for a truly immersive live concert or studio session experience. With the HT-A5000, your music comes to life like never before.

Get fuller, richer sound with optional equipment

Two subwoofer choices (SA-SW3 and SA-SW5) and a set of rear speakers (SA-RS3S) are optional equipment designed to help you enhance the immersion of your content. The subwoofer and rear speaker accessories take out any guesswork of connecting, as they automatically pair to the HT-A5000 once they are powered on.

Effortless control and immersion with BRAVIA

With an integrated UI, home theater system settings automatically appear on the BRAVIA Quick Settings menu for easy control of sound modes, sound field, and volume.⁴ When connected to a BRAVIA TV with Acoustic Center Sync using the supplied cable, both the soundbar and the TV become the center speaker in your home cinema system⁴. This enables sound to precisely match what's on the screen for a truly immersive experience.

Easy UI and setup

An OLED front panel display is on the soundbar for quick viewing of the volume level, sound mode, or input. An onscreen user interface helps you make more detailed adjustments to your HT-A5000 settings easily. The HT-A5000 is almost ready to go straight out of the box. Simply plug it in, connect to your TV using the HDMI eARC connection and power on or connect wirelessly⁹ to your TV. With USB, optical, and analog audio in as well as HDMI in and out (eARC) and S-CENTER OUT for compatible BRAVIA⁴ models, you have all the connections you need to enjoy a breathtaking surround sound experience.

Easy Listening

It's never been easier to listen to your favorite tracks. The HT-A5000 supports audio streaming via Bluetooth⁹, Wi-Fi, Chromecast built-in¹¹, Spotify Connect, and Apple AirPlay 2.^{8,10}

Voice Assistant Compatibility

Connect to your home's other devices with Google Assistant⁵ or Amazon Alexa⁶
