

SAMSUNG

Galaxy Tab S8

Your everything tablet for life on the go

Meet Galaxy Tab S8, a top-of-the-line tablet designed to help you get more out of your day, wherever you happen to be. Take that video call for work at a coffee shop. Lose yourself in your favorite music videos at the park. Whatever you're doing, make the day yours with an impressive but surprisingly portable 11" LCD display that's easy on the eyes, giving you plenty of room to get things done no matter where you are. The large screen also levels up your video call experience, so you can feel closer to whoever you're speaking to; and an ultra-wide camera with auto framing and auto zoom keeps the spotlight on you.

Power through your day like never before with an updated Qualcomm Snapdragon chipset processor that packs one of Galaxy's most powerful performances yet. And keep going strong all day long with a long-life battery that's all that, plus some. We also reduced the latency on S Pen so it feels faster, making it feel more like a real pen in your hands, so you can write and sketch your heart out. Convert your handwriting to text automatically with Samsung Notes, a note-taking app that keeps your notes in sync with your phone, thanks to seamless Galaxy connectivity. Tab S8 helps you crush the day.

Master multitasking

Discover new ways to work with the 2-in-1 capabilities of a tablet and a PC — Samsung DeX creates a desktop experience on your tablet, and Microsoft 365 integration lets you create and edit documents like you would on a PC.

Packed with power

Rock the day with serious performance power, including an impressive Qualcomm Snapdragon chipset and an all-day battery.

Closer to a real pen than ever before

Inspire your imagination with our fastest S Pen yet, with near-zero latency to feel even more like a real pen — it's included with purchase.

Charge fast. Power for hours.

Go for hours on a single charge¹ and back to 100% quickly with the fast-charging USB-C port.
