

HTA7000

7.1.2ch Dolby Atmos® Soundbar

Discover a whole new level of immersion that envelops you in surround sound. Feel the action happening above and all around you with Sound Field Optimization personalizing the entire experience. Built-in side beam tweeters, X-Balanced speaker unit, and more bring you closer to the action than ever before. Futureproof your home theater with 8K¹/4K 120P² compatibility for high quality video and sound.

Bullets

- A wider sweet spot lets everyone have the best seat in the house
- Sound Field Optimization calibrates to your environment for easy set up
- Immersive Audio Enhancement converts regular audio to near 7.1.2 Ch
- Vivid visuals and fast paced game play with 8K¹ and 4K/120² passthrough
- Customize your setup with two subwoofer choices and an optional rear speaker set
- Pairs with BRAVIA⁴ for easy access to soundbar controls
- Stream your way with Bluetooth⁹, Wi-Fi, Chromecast built-in¹¹, Spotify Connect, and Apple AirPlay 2¹⁰
- Integrates with your connected devices with Google Assistant⁵ and Amazon Alexa⁶
- An onscreen user interface helps you make more detailed adjustments to your HT-A7000 settings easily
- Immerse yourself in supreme music quality with Hi-Res Audio and 360 Reality Audio⁷

Features

Breathtaking surround sound from our flagship soundbar

Utilizing a combination of technology such as Vertical Surround Engine and S-Force Pro Front Surround, the HT-A7000 provides a wider sweet spot, enabling everyone to have the best seat in the house during a movie. Dolby Atmos®, DTS:X®, lend a more realistic, multi-dimensional sound to your content.

Perfect for any room

Sound Field Optimization calibrates the HT-A7000 to your room environment to provide the best sound. Even if you move the soundbar from the main room to a bedroom, the HT-A7000 will personalize the sound for you.

High Quality Audio

HT-A7000 is packed with class leading technology for the best sound experience. X-Balanced speaker units minimize distortion while the up-firing speakers and beam tweeters fill the room to give an ultra-immersive listening experience. Built-in subwoofers provide an additional boost to low end frequencies.

High quality video passthrough

HT-A7000 is equipped with 8K¹ and 4K/120p² passthrough to support the latest video formats including Dolby Vision. From vivid visuals to fast-paced video game play, HT-A7000 has you covered.

Customize your ultimate sound

Two subwoofer choices (SA-SW3 and SA-SW5) and a set of rear speakers (SA-RS3S) are optional equipment designed to help you enhance the immersion of your content. The subwoofer and rear speaker accessories take out any guesswork of connecting, as they automatically pair to the HT-A7000 once they are powered on.

Effortless control and immersion with BRAVIA

With an integrated UI, home theater system settings automatically appear on the BRAVIA Quick Settings menu for easy control of sound modes, sound field and volume.⁴ When connected to a BRAVIA TV with Acoustic Center Sync using the supplied cable, both the soundbar and the TV become the center speaker in your home cinema system⁴. This enables sound to precisely match what's on the screen for a truly immersive experience.

Easy Listening

It's never been easier to listen to your favorite tracks. The HT-A7000 supports audio streaming via Bluetooth⁹, Wi-Fi, Chromecast built-in, Spotify Connect, and Apple Airplay 2.⁸

Voice Assistant Compatibility

Connect to your home's other devices with Google Assistant⁵ or Amazon Alexa⁶ (via FW update)

Easy UI and setup

An OLED front panel display is also on the soundbar for quick viewing of the volume level, sound mode, or input. An onscreen user interface helps you make more detailed adjustments to your HT-A7000 settings easily. The HT-A7000 is almost ready to go straight out of the box. Simply plug it in, connect to your TV using the HDMI eARC connection and power on. With USB, optical and analog audio in as well as HDMI in and out (eARC) and S-CENTER OUT for compatible BRAVIA⁴ models, you have all the connections you need to enjoy a breathtaking surround sound experience.

Immerse yourself in supreme music quality

Enjoy music the way the artists truly intended with High-Resolution Audio for crystal clear precision, or discover a new way of listening with 360 Reality Audio⁷ for a truly immersive live concert or studio session experience. With the HT-A7000, your music comes to life like never before.
