

Sonos® Digital Music System

The first wireless, multi-room digital music system with a full-color Controller.

Sonos is the first wireless, multi-room digital music system that lets you play all your digital music, all over your house, and control it all from the palm of your hand.

Sonos liberates the music that's stored on your home network so you can listen to it in any room in your house—from the bedroom to the backyard. With the wireless full-color Sonos® Controller in hand, you'll have instant access to all your digital music, plus Internet radio, subscriptions to online audio

services, and even music from your favorite CD or MP3 player. And, with Sonos® ZonePlayers in the rooms of your choice, you can play the same song in different rooms, or different songs in different rooms. To start listening, just grab your Controller and simply pick a room, pick a song and hit play.

Sonos ZonePlayer 80 (ZP80)

- Connect to your home theater, stereo or any amplified audio device
- Superior audio quality with digital output
- Compact design

Sonos ZonePlayer 100 (ZP100)

- High-performance, built-in 50W amplifier
- Powers large or small speakers
- Superior audio quality

Wireless, multi-room music

Wirelessly stream digital music and Internet radio to every room in your house—inside or out. Connect the first ZonePlayer to your home network using a standard Ethernet cable and operate the rest wirelessly when a wired Ethernet connection is not available.

Multiple streams

Play the same song in different rooms, or different songs in different rooms—simultaneously.

Plug-and-play access to millions of songs

Sonos plays music from your personal digital music collection (stored on up to 16 PCs, Macs or NAS devices), music services, Internet radio, or all of the above.

Sonos Controller (CR100)

Instantly access all your music and all your ZonePlayers from the palm of your hand.

Wireless, multi-room control

Control everything from volume to music in any room, from anywhere. Turn off the upstairs music while you're downstairs. Change the song in the kitchen from the bedroom.

Full-color 3.5" LCD screen

See album art, browse playlists, get detailed track information, and more on the high-resolution color screen that's optimized for indoor and outdoor use.

Scroll wheel selector

Browse through large music collections and make selections with ease.

Easy to use

Just pick a room, pick a song and hit play.

Charging Cradle *(sold separately)*

Designed to hold and charge your Sonos Controller. Use the AC Adapter that comes with your Controller for power, then mount it on the wall or place it on a table. When the Controller is in the cradle, it's fully functional.

Sonos Bundles

Get started in two rooms of your house with two Sonos ZonePlayers and a Controller.
