

Movies TV Shows Music Podcasts Photos Settings

Movies

Just add popcorn.

Turn your living room into a multiplex with Apple TV. From the Movies menu, you can choose from up to 50 hours of flicks from iTunes, home movies you made yourself, previews from iTunes Top Movies, even movie trailers that stream directly from Apple.com.

TV Shows

Channel you.

Be your own program director with up to 50 hours of TV shows on Apple TV. Sort shows by date or show, then watch them anytime — completely commercial free. Or check out the latest TV offerings from iTunes Top TV Shows.

Music

Musically inclined.

If the best sound system in your house is connected to your TV, why play your iTunes library anywhere else? Apple TV lets you browse and play up to 9,000 songs and watch music videos, all on the big screen (and the big speakers).

Podcasts

Radio on the TV.

Thanks to Apple TV, you can enjoy podcasts on your TV for the first time ever. Listen to your favorite audio podcasts through your entertainment system speakers and watch video podcasts from the comfort of your couch.

Photos

Get the big picture.

Apple TV brings photo slideshows out of the den and into the living room. Pull up the best seat in the house and view your photos in jaw-dropping high definition. With up to 25,000 photos at your fingertips, you'll never cease to amaze.

Settings

All set.

From the Settings menu, you can set up your screen saver, your network, or your TV resolution, and get more information about your Apple TV.
