- **a5 AI Processor Gen6**
- **WebOS23 & LG Channels**
- **Home Cinema Experience**
- **Powerful Gameplay**

DESCRIPTION

A Duo Designed to Color Your World

The combination of Quantum Dot and NanoCell color technologies makes the LG QNED unlike any other LED by creating a vivid and immersive experience.

KEY FEATURES

Quantum Dot NanoCell

A passion for color

LG QNED combines cutting-edge Quantum Dots with LG's NanoCell technology to create uniquely bright colorful images. Dimming Pro dynamically adjusts the back lights to maintain deep black levels, allowing you to be immersed.

a5 AI Processor Gen6

Engineered to immerse

Powered by AI, you will experience enhanced picture detail and improved sound from the a5 AI Processor Gen6 that upscales content to 4K* and detects room lighting to adjust color and picture contrast to optimal settings.

*Image quality of upscaled content will vary based on source resolution.

WebOS23 & LG Channels

Smart TV, simplified

Less searching, more streaming, thanks to the next generation of AI technology. Enjoy your favorite content including fitness, sports, entertainment and more. With Quick Cards, group your favorite apps into categories and use the Magic Remote to easily find what you're looking for. Get instant access to over 300 free channels with LG Channels.*

*Internet connection and subscriptions to streaming services are required; number of LG Channels subject to change.

Home Cinema Experience

Elevate your scene

Enhance every moment with virtual 5.1 surround sound for an immersive home theater experience. And, transport yourself to the center of superhero-sized action and galaxies far, far away with LG's FILMMAKER MODE™ that allows you to see films just as the directors intended.

Powerful Gameplay

Bring on the game

Quickly customize your gaming experience in one location with the LG Game Optimizer. And, with GeForce NOW included, you can automatically stream and get in the game.*

*Subscription and compatible gaming controller are required.
