

PVC SLEEVES FOR 2-CONDUCTOR CC CABLE

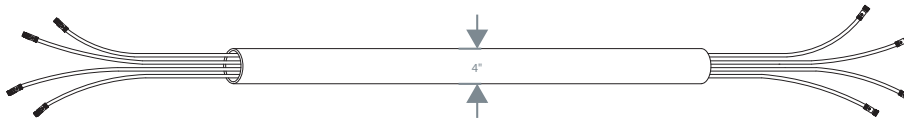

PVC SLEEVES may be used for easy installation of low voltage cables under a hard surface such as concrete paving or asphalt that would typically make them inaccessible for future maintenance. A 2" sleeve, used for small lighting and audio applications, can fit up to (3) Coastal Source 12 AWG 2C CC cables. A 4" sleeve, used for large projects or to plan for future expansion, can comfortably fit up to (10) Coastal Source 12 AWG 2C CC cables.

2" SLEEVE INSTALLATION

4" SLEEVE INSTALLATION
