

Desk-mount Dual-Monitor Arm - Cross Bar - Grommet/Desk Clamp Mount - For up to 27" (17.6lb/8kg) Displays

**Product ID:** ARMBARDUOG

This deskmount dual-monitor arm lets you mount two 13" to 27" VESA mount monitors, each weighing up to 17.6 lb. (8 kg), onto a single low-profile base. It gives you flexible desk-clamp or grommet-hole mounting, letting you save space while creating an ergonomic workspace in any office environment.

With a stable dual-arm design, the double-monitor mount lets you create more usable work space by mounting your monitors side by side on a single base. The screen mount features a flat low-profile back that lets you position your displays against a wall or cubicle wall.

The computer monitor desk mount features adjustable height along the pole. The smooth +/- 30 tilt motion and +/- 30 swivel make it easy to find the optimal viewing angle. You can also rotate your display 360 for portrait or landscape viewing, and make sure your displays are perfectly aligned using the micro-adjustment knob.

The dual-monitor arm is easy to install, with the desk-clamp or grommet mount (hardware included). Integrated cable management keeps your workspace organized. It works well with most desks, including sit-stand workstations.

Adding two monitors gives you the extra screen space you need to simplify multitasking and maximize your productivity.

ARMBARDUOG is backed by a 5-year StarTech.com warranty and free lifetime technical support.

## Certifications, Reports and Compatibility

## Applications

- Mount two monitors on a single base to save desk space
- Maximize office space, creating a dual-monitor workstation against a wall or cubicle wall
- Works with sit-stand workstations, using the desk clamp or grommet mount

## Features

- Save space by mounting two monitors up to 27" onto a single base (max. weight 17.6 lb. / 8 kg)
- Landscape-to-portrait display rotation (for use in portrait position, the mount supports ultrawide displays with max width of 23"/58.4 cm)
- Work comfortably with adjustable height, +/- 30° tilt, +/- 30° swivel and 360° rotation
- Versatile use with desk-clamp or grommet-hole mounting
- Place monitors close to a wall/cubicle wall, with a low-profile design
