DIGITAL SPEAKER SYSTEM FOR iPod®

**Powerful,
crystal-clear sound**

FM radio

Wireless remote

Rechargeable battery

**Travel-size,
foldable design**

**Bass enhancement
technology**

inMotion

im600

Works with all iPod models

RECHARGEABLE BATTERY

Sound widening technology

COMPOSITE VIDEO

Playback videos and photos on your TV

USB

Sync your iPod for data transfer

AUX

Use other MP3, CD and DVD players

SUB OUT

Connect to a subwoofer for extra bass

THE NEW STANDARD FROM THE COMPANY THAT SET THE STANDARD

When Altec Lansing introduced the original inMotion, it set new standards for sound and size and let a whole lot of music out of the iPod. Now Altec Lansing raises the bar again with an innovative and performance-leading new model. The Altec Lansing iM600 sound system offers stereo sound from dual 2-inch neodymium drivers optimized for high-frequency extension (better highs, in other words). It offers more power and output than any other system in its class and, what's more, it features another Altec Lansing engineering innovation called the Stereo Field Expander: SFX for short. SFX makes the speakers sound further apart than they really are, giving the user a heightened stereo effect.

The iM600 also features a stereo FM radio and can double as a clock radio when plugged in to an electrical outlet (AC adapter included). It includes rechargeable Li-ion batteries and a wireless remote. And it syncs and charges all dockable iPod models.

Whether on the go or on your desk or tabletop, the iM600 resets the expectations for features and performance in a sound solution for the iPod.

Rechargeable Li-ion battery

Listen to over 7 hours of continuous play (or use the included AC adapter)

Full-function remote

Alarm clock

The iM600 is fully compatible with iPod models that have the alarm clock and sleep timer features.

FM radio

With convenient remote controls and station presets, LCD display, and telescopic antenna.

Composite video out

Lets you play your videos and photos for iPod on most TVs.

Compact design

Folds to close at 11" wide, 1.7" deep, and 6" high (283 mm x 43 mm x 152 mm) for convenient mobility.

Input jack

For second device connection, including CD, DVD, and MP3 players.

Built-in dock for iPod

Allows data transfer and recharge.

Superior bass enhancement technology

Quality bass without a subwoofer.

SFX Stereo Field Expander

inMotion's proprietary signal processing widens the stereophonic image to dramatically expand the audio soundstage.

Weighs

Only 2.1 pounds (0.9 kg).

CONTENTS:

- inMotion iM600 mobile speaker system
- Wireless remote
- iPod docking adapters
- Power supply
- User's guide and quick connect instructions
