DCP-L2640DW / DCP-L2660DW / HL-L2480DW / MFC-L2760DW / MFC-L2807DW / MFC-L2820DW / MFC-L2820DWXL /
MFC-L2880DW

Read this guide before attempting to operate the product, or before attempting any maintenance, and ensure that you follow all warnings and instructions marked on the product. If you have concerns about how to use your product safely after reading this guide, contact Brother customer service or your local Brother dealer. Failure to follow these instructions may result in an increased risk of personal injury or damage to property, including through fire, electrical shock, burns or suffocation. Brother shall not be liable for the damage caused where the product owner has failed to follow the instructions set out in this guide or on the product.

For more advanced instructions, information, and product specifications, see the *Online User's Guide* at support.brother.com/manuals.

Symbols and Conventions Used in the Documentation

WARNING

WARNING indicates a potentially hazardous situation which, if not avoided, could result in death or serious injuries.

CAUTION

CAUTION indicates a potentially hazardous situation which, if not avoided, may result in minor or moderate injuries.

IMPORTANT

IMPORTANT indicates a potentially hazardous situation which, if not avoided, may result in damage to property or loss of product functionality.

NOTE

NOTE specifies the operating environment, conditions for installation, or special conditions of use.

Hot Surface icons warn you not to touch product parts that are hot.

Prohibition icons indicate actions that must not be performed.

Electrical Hazard icons alert you to the possibility of an electric shock.

Fire Hazard icons alert you to the possibility of a fire.

Font Styles Used in the Documentation

The definitions of font style are as follows:

Bold	Bold typeface identifies specific buttons on the product's control panel or on the computer screen.
<i>Italics</i>	Italicized style emphasizes an important point or refers you to a related topic.
<code>Courier New</code>	Text in Courier New font identifies messages on the LCD of the product.

Compilation and Publication Notice

Not all models are available in all countries.

The illustrations in this guide show the HL-L2460DW/MFC-L2820DW.

Under the supervision of Brother Industries, Ltd., this product's manuals have been compiled and published, covering the latest product descriptions and specifications.

The contents of all manuals and the specifications of this product are subject to change without notice.

Brother reserves the right to make changes without notice in the specifications and materials contained herein and shall not be responsible for any damages (including consequential) caused by reliance on the materials presented, including but not limited to typographical and other errors relating to the publication.

©2023 Brother Industries, Ltd. All rights reserved.

Choose a Safe Location for Your Product

WARNING

Choose a location where the temperature remains between 50°F and 90.5°F (10°C and 32.5°C), the humidity is between 20% and 80%, and where there is no condensation.

DO NOT place the product near heaters, air conditioners, electrical fans, refrigerators, or water. Doing so may create the risk of an electrical shock, short circuit, or fire, as water may come into contact with the product (including condensation caused by heating/air conditioning/ventilation equipment).

DO NOT allow this product to come into contact with water. This product should not be used around standing water, including a bathtub, sink, or swimming pool; around appliances containing water, including a refrigerator; or in a wet basement.

DO NOT expose the product to direct sunlight, excessive heat, open flames, corrosive gasses, moisture, or dust. Doing so may create a risk of an electrical shock, short circuit, or fire, causing damage to the product and/or rendering it inoperable.

DO NOT place the product near chemicals or in a place where chemicals could be spilled on it. Should chemicals come into contact with the product, there may be a risk of fire or electrical shock. In particular, organic solvents or liquids such as benzene, paint thinner, polish remover, or deodorizer may melt or dissolve the plastic cover and/or cables, resulting in a risk of fire or electrical shock. These or other chemicals may cause the product to malfunction or become discolored.

DO NOT place this product on an unstable cart, stand, or table, particularly if children are expected to be near the product. The product is heavy and may fall, causing injury to you or others and serious damage to the product. For products with scanning functionality, there is an added risk of injury if the scanner glass should break.

DO NOT put the product in a location that blocks or obstructs any slot or opening in the product. These slots and openings are provided for ventilation. Blocking the machine's ventilation could create a risk of overheating and/or fire.

Instead:

- Keep a minimum gap around the product as shown in the illustration.

Products without the scanning function

Products with the scanning function

DCP-B7640DW/HL-L2465DW/DCP-L2640DW/DCP-L2660DW/HL-L2480DW/
MFC-L2760DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2880DW:

- Place the product on a solid level surface.
- DO NOT place this product near or over a radiator or heater.
- DO NOT place this product in any installation unless adequate ventilation is provided.

CAUTION

Put your product on a flat, level, stable surface (such as a desk), that is free from vibration and shocks. Put the product near a telephone wall jack (models with the fax function only) and a standard grounded AC power outlet.

Avoid placing your product in a busy area. If you must place it in a busy area, ensure that the product is in a safe location where it cannot be accidentally knocked over, which could cause injury to you or others and serious damage to the product.

Ensure that cables and cords leading to the product are secured so as not to pose a tripping hazard.

DO NOT place heavy objects on the product.

DO NOT place any objects around the product. Such objects block the access to the power outlet in case of emergency. It is important that the product can be unplugged whenever needed.

The product may generate odorous gas such as ozone if used for a large volume of printing or used in a poorly ventilated room for multiple hours. In addition, the product emits some chemical substances during the printing process. Ensure adequate ventilation for the product to avoid injury or discomfort.

IMPORTANT

- DO NOT place your product next to devices that contain magnets or generate magnetic fields. Doing so may interfere with the operation of the product, causing print quality problems.
 - DO NOT place your product next to sources of interference, such as speakers or the base units of cordless telephones. Doing so may interfere with the operation of the product's electronic components.
-

Connect the Product Safely

WARNING

ELECTRICAL HAZARDS

Failure to follow the warnings in this section may create the risk of an electrical shock. In addition, you could cause a short circuit, which may create the risk of fire.

There are high-voltage electrodes inside the product. Before you access the inside of the product, including for routine maintenance such as cleaning, make sure you have unplugged the telephone line cord first (models with the fax function only) and then the power cord from the AC power outlet, as well as any telephone/RJ-11 (models with the fax function only) or Ethernet/RJ-45 cables (network models only) from the product.

DO NOT push objects of any kind into this product through slots or openings in the product, as they may touch dangerous voltage points or short-out parts.

DO NOT handle the plug with wet hands. Doing this might cause an electrical shock.

Always make sure the plug is fully inserted. DO NOT use the product or handle the cord if the cord has become worn or frayed.

Unplug the power plug regularly to clean it. Use a dry cloth to clean the root of the plug blades and between the blades. If the power plug is plugged into the outlet over a long period, dust accumulates around the plug blades, which may cause a short circuit, resulting in a fire.

DO NOT drop any metal objects or any type of liquid on the power plug of the product. It may cause an electrical shock or a fire.

This product should be connected to an AC power source within the range indicated on the rating label on your machine. DO NOT connect it to a DC power source or inverter. If you are not sure what kind of power source you have, contact a qualified electrician.

Use the Product Safely

WARNING

Plastic bags are used in the packing of this product. Plastic bags are not toys. To avoid the danger of suffocation, keep these bags away from babies and children, and dispose of them correctly.

ELECTRICAL HAZARDS

Failure to follow the warnings in this section may create the risk of an electrical shock. In addition, you could cause a short circuit, which may lead to fire.

DO NOT dismantle this product. Dismantling this product could cause a fire or electrical shock.

DO NOT attempt to service this product yourself. Opening or removing covers may expose you to dangerous voltage points and other risks and may void your warranty. Refer all servicing to a Brother Authorized Service Center.

If the product has been dropped or the casing has been damaged, there may be the possibility of an electrical shock. Unplug the product from the AC power outlet and contact Brother Authorized Service Personnel.

If water, other liquids, or metal objects get inside the product, immediately unplug the product from the AC power outlet and contact Brother Authorized Service Personnel.

DO NOT use this product during a thunderstorm. There may be a remote risk of an electrical shock from lightning.

FIRE HAZARDS

Failure to follow the warnings in this section may create the risk of fire.

DO NOT use flammable substances, any type of spray, or an organic solvent/liquid containing alcohol or ammonia to clean the inside or outside of the product. Doing so could cause a fire. Instead, use only a dry, lint-free cloth. For instructions on how to clean the product, see the *Online User's Guide*.

DO NOT attempt to operate this product when a paper jam or stray pieces of paper are inside the product. Prolonged contact of paper with the fuser unit could cause a fire.

DO NOT use a vacuum cleaner to clean up scattered toner. Doing this might cause the toner dust to ignite inside the vacuum cleaner, potentially starting a fire. Carefully clean the toner dust with a dry, lint-free soft cloth, and dispose of it according to local regulations.

(Models with the Wireless LAN function only)

DO NOT use the product near any medical electrical equipment. The radio waves emitted from the product may affect medical electrical equipment and cause a malfunction, which may result in accident or injury.

For users with pacemakers:

(Models with the Wireless LAN function only)

This product generates a weak magnetic field. If you feel anything wrong with the operation of your pacemaker when near the product, move away from the product and consult a doctor immediately.

DO NOT place metal objects, such as clips, staples, or jewelry on the product. If these objects contact the electrical parts inside the product, it may cause a fire or electrical shock.

DO NOT place a container holding water or liquid on the product. The water or liquid in the container may spill into the product, making contact with the electrical parts inside the product, which may cause a fire or electrical shock.

HOT SURFACE

Immediately after using the product, some internal parts of the product will be extremely hot. Wait at least 10 minutes for the product to cool down before you touch the internal parts of the product.

If the product becomes unusually hot, releases smoke, generates any strong smells, or if you accidentally spill any liquid on it, immediately unplug the product from the AC power outlet. Contact Brother Authorized Service Personnel.

(Models with the fax function only)

Use caution when installing or modifying telephone lines. Never touch telephone wires or terminals that are not insulated unless the telephone line has been unplugged from the wall jack.

Never install telephone wiring during a thunderstorm. Never install a telephone wall jack in a location that is wet or may become wet, for example, near a refrigerator or other appliance that produces condensation.

Power Cord Safety:

- This product is equipped with a grounded plug. This plug will only fit into a grounded power outlet. This is a safety feature. If you are unable to insert the plug into the outlet, call your electrician to replace your obsolete outlet. DO NOT attempt to defeat the purpose of the grounded plug.
 - DO NOT allow anything to rest on the power cord.
 - DO NOT place this product where others might step on the cord.
 - DO NOT place this product in a position where the cord is stretched or strained as it may become worn or frayed.
 - DO NOT use the product if the power cord is frayed or damaged. Doing so may cause an electrical shock or fire.
 - DO NOT pull on the middle of the power cord; pulling on the middle may cause the cord to separate from the plug. Doing this might cause an electrical shock.
 - DO NOT use any undesignated cables (or optional devices). Doing so may cause a fire or injuries. Installation must be performed correctly according to the *Quick Setup Guide*.
 - Brother strongly recommends that you DO NOT use any type of extension cord.
 - This product should be positioned so that nothing pinches or constricts the power cord.
 - DO NOT use cables that do not meet the cable specifications described in the *Specifications and Supplies*. Doing so may cause a fire or injuries.
 - If the power cord is provided with this product, use ONLY the provided cord. Installation must be performed correctly as described in the *Quick Setup Guide*.
-

When you move the product, carry the product as shown in the illustration.

CAUTION

To prevent injuries, be careful not to put your fingers in the areas shown in the illustrations.

For your safety, unplug the product from the power outlet when it is not used for a long time.

When multiple devices, including this product, are connected to a computer using USB cables, you may feel an electric charge when you touch metal parts of the product.

Some products and/or their cartons contain a silica gel pack. DO NOT eat the silica gel pack; throw it away. If you ingest it, seek medical attention immediately.

Keep toner cartridges out of the reach of children. If a child swallows the toner dust, consult a doctor immediately.

We recommend placing the toner cartridge and drum unit assembly on a clean, flat surface with disposable paper underneath it in case you accidentally spill or scatter toner. If toner scatters on your hands or clothes, immediately wipe it off or wash it with soap and cold water.

Should you come into contact with toner, follow these instructions:

- Inhalation

Obtain immediate medical attention. In case of accidental inhalation, move to fresh air immediately, then obtain medical attention.

- Skin contact

Remove contaminated clothing immediately and wash the affected skin with soap and cold water.

- Eye contact

Obtain medical attention. If the toner has gotten into the eyes, immediately wash out the eyes with water continuously, for at least 15 minutes.

- Ingestion

Obtain immediate medical attention. Wash out mouth with water and drink 200 - 300 ml (one cup) of water.

DO NOT try to open a toner cartridge. If the toner dust leaks out, avoid inhaling it or letting it come in contact with your skin.

DO NOT run your hand over the edge of the paper. The thin and sharp edges of the paper may cause an injury.

This machine contains electronic components that emit electromagnetic radiation during the printing operation. To avoid the possibility of electromagnetic radiation exposure to your body, maintain a distance of 7.87 inches (20 cm) from both sides of the machine when printing.

DO NOT remove or damage any of the caution or warning labels inside the product.

IMPORTANT

- A distinct change in the product's performance may indicate a need for service.
 - DO NOT connect your product to an AC power outlet controlled by wall switches or automatic timers, or to the same circuit as a large appliance or other equipment that requires a significant amount of electricity. It could disrupt the power supply. Disruption of the power supply may also delete information from the product's memory, and repeated cycling of the power supply can damage the product.
 - DO NOT put any objects on top of the product. Doing so may cause the product to malfunction.
-

Important Safety Instructions

DO NOT attempt to service this product yourself because opening or removing covers may expose you to dangerous voltage points and other risks and may void your warranty. Refer all servicing to a Brother Authorized Service Center.

1. Read all of these instructions.
2. Save these instructions for later reference.
3. Follow all warnings and instructions marked on the product.
4. Unplug this product from the AC power outlet and refer servicing to Brother Authorized Personnel if any of the following occur:
 - If liquid has been spilled into the product.
 - If the product has been exposed to rain or water.

- If the product does not operate normally when the operating instructions are followed. Adjust only those controls that are discussed in the operating instructions. Improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the product to normal operation.
 - If the product exhibits a distinct change in performance, indicating a need for service.
5. For the location of your nearest Brother Authorized Service Center, contact:

In USA: 1-877-BROTHER (1-877-276-8437)

In Canada: www.brother.ca/support

Regulations

WARNING

(Models with the fax function only)

When using your telephone equipment, basic safety precautions should always be followed to reduce the risk of fire, electrical shock, and injury to people. These important safety precautions include the following:

1. DO NOT use this product near water or locations that may become wet, for example, near a bathtub, wash bowl, kitchen sink or washing machine, in a wet basement, or near a swimming pool.
2. Avoid using this product during a thunderstorm. There may be a remote risk of an electrical shock from lightning.
3. DO NOT use this product to report a gas leak in the vicinity of the leak.
4. Use only the power cord provided with the product (if included in the box).

Read all of the instructions. Save them for later reference.

(Models with the fax function only)

To reduce the risk of fire, electrical shock, and injury to people;

- Use only a No. 26 AWG or larger telecommunication line cord.

Disconnect device

This product must be installed near an AC power outlet that is easily accessible. In case of an emergency, you must unplug the power cord from the AC power outlet to shut off the power completely.

For protection against the risk of electrical shock, always disconnect all cables from the wall outlet before the equipment is installed, serviced, or modified.

IMPORTANT

- Brother cannot accept any financial or other responsibilities that may be the result of your use of this information, including direct, special, or consequential damages. There are no warranties extended or granted by this document.
- A grounded plug should be plugged into a grounded AC power outlet after checking the rating of the local power supply for the product to operate properly and safely.

Standard Telephone and FCC Notices (Models with the fax function only)

These notices are in effect on models sold and used in the United States only.

When programming emergency numbers or making test calls to emergency numbers:

- Remain on the line and briefly explain to the dispatcher the reason for the call before hanging up.
- Perform these activities in the off-peak hours, such as early morning or late evening.

This equipment complies with Part 68 of the FCC rules and the requirements adopted by the ACTA. On the back side of this equipment is a label that contains, among other information, a product identifier in the format US: AAAEQ##TXXXX. If requested, this number must be provided to the telephone company.

You may safely connect this equipment to the telephone line by means of a standard modular jack, USOC RJ11C.

A plug and jack used to connect this equipment to the premises wiring and telephone network must comply with the applicable FCC Part 68 rules and requirements adopted by the ACTA. A compliant telephone cord and modular plug is provided with this product. It is designed to be connected to a compatible modular jack that is also compliant. See installation instructions for details.

The Ringer Equivalence Number (REN) is used to determine the number of devices that may be connected to a telephone line. Excessive RENs on a telephone line may result in the devices not ringing in response to an incoming call. In most but not all areas, the sum of RENs should not exceed five (5.0). To be certain of the number of devices that may be connected to a line, as determined by the total RENs, contact the local telephone company. For products approved after July 23, 2001, the REN for this product is part of the product identifier that has the format US:AAAEQ##TXXXX. The digits represented by ## are the REN without a decimal point (e.g., 06 is a REN of 0.6). For earlier products, the REN is separately shown on the label.

If this equipment causes harm to the telephone network, the telephone company will notify you in advance that temporary discontinuance of service may be required. But if advance notice is not practical, the telephone company will notify you as soon as possible. Also, you will be advised of your right to file a complaint with the FCC if you believe it is necessary.

The telephone company may make changes in its facilities, equipment, operations, or procedures that could affect the operation of the equipment. If this happens, the telephone company will provide advance notice in order for you to make necessary modifications to maintain uninterrupted service.

If trouble is experienced with this equipment, for repair or warranty information, contact Brother Customer Service (see the *Online User's Guide: Brother Help and Customer Support*). If the equipment is causing harm to the telephone network, the telephone company may request that you disconnect the equipment until the problem is resolved.

Connection to party line service is subject to state tariffs. Contact the state public utility commission, public service commission or corporation commission for information.

If your home has specially wired alarm equipment connected to the telephone line, ensure the installation of this equipment does not disable your alarm equipment. If you have questions about what will disable the alarm equipment, call your telephone company or a qualified installer.

The Telephone Consumer Protection Act of 1991 makes it unlawful for any person to use a computer or electronic device to send any message via a telephone fax machine unless such messages clearly contain, in a margin at the top or bottom of each transmitted page, or on the first page of the transmission, the date and time it is sent and an identification of the business or other entity or other individual sending the message and the telephone number of the sending machine or such business, other entity or individual. To program this information into your machine, see the *Online User's Guide: Set the Date and Time* and *Set Your Station ID*.

If you are not able to solve a problem with your product, contact Brother Customer Service (see the *Online User's Guide: Brother Help and Customer Support*).

Federal Communications Commission (FCC) Supplier's Declaration of Conformity (USA Only)

Responsible Party:	Brother International Corporation 200 Crossing Boulevard Bridgewater, NJ 08807-0911 USA TEL: (908) 704-1700
--------------------	--

declares, that the products

Product Name: Mono Laser Printer

Model Numbers: HL-L2400D/HL-L2405W/HL-L2420DW/HL-L2460DW/HL-L2460DWXL/HL-L2865DW

Product Name: Multi Function Printer

Model Numbers: DCP-B7640DW/HL-L2465DW/DCP-L2640DW/DCP-L2660DW/HL-L2480DW/MFC-L2760DW/MFC-L2807DW/MFC-L2820DW/MFC-L2820DWXL/MFC-L2880DW

comply with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates,

uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult with an experienced radio/TV technician for help.
- (Wireless network models only)
This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.

IMPORTANT

- Changes or modifications not expressly approved by Brother Industries, Ltd. could void the user's authority to operate the equipment.
 - A shielded interface cable should be used to ensure compliance with the limits for a Class B digital device.
-

Compliance with FCC requirement 15.407(c)

Data transmission is always initiated by software, which is then passed down through the MAC, through the digital and analog baseband, and finally to the RF chip. Several special packets are initiated by the MAC. These are the only ways the digital baseband portion will turn on the RF transmitter, which it then turns off at the end of the packet. Therefore, the transmitter will be on only while one of the aforementioned packets is being transmitted. In other words, this device automatically discontinues transmission in case of either absence of information to transmit or operational failure.

Frequency Tolerance: ± 25 ppm

RF Exposure Notice (USA or Canada Only) (Wireless Models Only)

This equipment complies with FCC/IC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines and RSS-102 of the IC radio frequency (RF) Exposure rules. This equipment should be installed and operated keeping the radiator at least 20 cm or more away from a person's body.

Cet équipement est conforme aux limites d'exposition aux rayonnements énoncées pour un environnement non contrôlé et respecte les lignes directrices d'exposition aux fréquences radioélectriques (RF) de la FCC et les règles d'exposition aux fréquences radioélectriques (RF) CNR-102 de l'IC. Cet équipement doit être installé et utilisé en gardant une distance de 20 cm ou plus entre le radiateur et le corps humain.

Wireless Connection (Mexico Only) (Wireless Models Only)

The operation of this equipment is subject to the following two conditions:

(1) it is possible that this equipment or device may not cause harmful interference, and (2) this equipment or device must accept any interference, including interference that may cause undesired operation.

La operación de este equipo está sujeta a las siguientes dos condiciones:

(1) es posible que este equipo o dispositivo no cause interferencia perjudicial y (2) este equipo o dispositivo debe aceptar cualquier interferencia, incluyendo la que pueda causar su operación no deseada.

Industry Canada Compliance Statement (Canada Only)

This device complies with Industry Canada's licence-exempt RSSs. Operation is subject to the following two conditions:

(1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

(1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

For indoor use only (5150 MHz - 5350 MHz)

Pour usage intérieur seulement (5150 MHz - 5350 MHz)

EQUIPMENT ATTACHMENT LIMITATIONS (Canada Only) (Models with the fax function only)

NOTICE

This product meets the applicable Innovation, Science and Economic Development Canada technical specifications.

Le présent produit est conforme aux spécifications techniques applicables d'Innovation, Sciences et Développement économique Canada.

NOTICE

The Ringer Equivalence Number (REN) indicates the maximum number of devices allowed to be connected to a telephone interface. The termination of an interface may consist of any combination of devices subject only to the requirement that the sum of the RENs of all the devices not exceed five.

L'indice d'équivalence de la sonnerie (IES) sert à indiquer le nombre maximal de dispositifs qui peuvent être raccordés à une interface téléphonique. La terminaison d'une interface peut consister en une combinaison quelconque de dispositifs, à la seule condition que la somme des IES de tous les dispositifs n'excède pas cinq.

Laser Safety (for 110V - 120V Models Only)

This equipment is certified as a Class 1 laser product as defined in IEC60825-1:2014 specifications under the U.S. Department of Health and Human Services (DHHS) Radiation Performance Standard according to the Radiation Control for Health and Safety Act of 1968. This means that the equipment does not produce hazardous laser radiation.

Since radiation emitted inside the equipment is completely confined within protective housings and external covers, the laser beam cannot escape from the product during any phase of user operation.

FDA Regulations (for 110V - 120V Models Only)

U.S. Food and Drug Administration (FDA) has implemented regulations for laser products manufactured on or after August 2, 1976. Compliance is mandatory for products marketed in the United States. One of the following labels on the back of the product indicates compliance with the FDA regulations and must be attached to laser products marketed in the United States.

Manufactured:

BROTHER INDUSTRIES (VIETNAM) LTD.

Phuc Dien Industrial Zone Cam Phuc Commune, Cam Giang District Hai Duong Province, Vietnam

This product complies with FDA performance standards for laser products except for conformance with IEC 60825-1 Ed. 3., as described in Laser Notice No. 56, dated May 8, 2019.

WARNING

Use of controls, adjustments, or performance of procedures other than those specified in this manual may result in hazardous invisible radiation exposure.

Internal laser radiation:

Max. Radiation Power: 25 mW

Wave Length: 775 nm - 800 nm

Laser Class: Class 3B

For Use in the USA or Canada Only

These products are made for use in the USA and Canada only. We cannot recommend using them overseas because it may violate the Telecommunications Regulations (models with the fax function only) of that country and the power requirements of your product may not be compatible with the power available in foreign countries. Using USA or Canada models overseas is at your own risk and may void your warranty.

LAN Connection (Models with the Wired LAN Function Only)

CAUTION

DO NOT connect this product to a LAN connection that is subject to over-voltages.

International ENERGY STAR® Qualification Statement (USA and Canada Only)

The purpose of the International ENERGY STAR® Program is to promote the development and popularization of energy-efficient office equipment.

As an ENERGY STAR® Partner, Brother Industries, Ltd. has determined that this product meets the ENERGY STAR® specifications for energy efficiency.

Trademarks

Wi-Fi® is a registered trademark of Wi-Fi Alliance®.

Each company whose software title is mentioned in this manual has a Software License Agreement specific to its proprietary programs.

Any trade names and product names of companies appearing on Brother products, related documents and any other materials are all trademarks or registered trademarks of those respective companies.

Legal Limitations for Copying or Scanning (Products with Scanning Function Only)

Reproductions of certain documents are illegal and may result in either criminal or civil liability.

The listing below is intended to be a guide rather than a complete listing of every possible prohibition. In case of doubt, we suggest that you consult with the appropriate authority or advisor with regard to the specific document.

The following documents issued by the United States/Canadian Government or any of its Agencies, States, Territories, or Provinces may not be copied or scanned.

- Money
- Bonds or other certificates of indebtedness
- Certificates of Deposit
- Internal Revenue Stamps (canceled or uncanceled)
- Selective Service or draft papers
- Passports
- United States/Canadian Postage Stamps (canceled or uncanceled)
- Food Stamps
- Immigration Papers
- Checks or drafts drawn by Governmental agencies
- Identifying badges or insignias
- Licenses and Certificates of Title to motor vehicles, under certain State/Provincial law

Copying or Scanning copyrighted works may be regulated by Federal, State, or local law. For more information, consult an appropriate authority or advisor.
