

# SPV-65RGB-CAN

Universal 6.5" Weather-Resistant Cage-Mounted Powersports RGB Speaker Pods (Pair)

## PRODUCT OVERVIEW

Elevate your off-road experience with unmatched sound from Alpine's Universal 6.5" Cage-Mounted Powersports Speaker Pods. Designed for thrill-seekers and outdoor enthusiasts, these pods deliver premium sound quality to any powersports, marine, or off-road vehicle.

## PRODUCT FEATURES

**Alpine Signature Sound** – Engineered with Alpine's signature sound quality, these speaker pods have been tested and proven to outperform the competition. Whether you're tearing through the dunes or cruising along a forest trail, enjoy crystal-clear highs and rich mid-range tones that cut through the roar of the engine and the rush of the wind.

**Built for the Outdoors** – Weather can be unpredictable, but your sound doesn't have to be. These speaker pods feature marine-grade, weather-resistant enclosures and drivers, ensuring top-notch performance even in the harshest environments. Rain, mud, or sun—these speaker pods are equipped to handle it all.

**Customizable RGB Lighting** - Stand out on the trail with front and rear RGB lighting that can be customized to match your vehicle's style. Whether you want to light up the night or add a subtle glow, these speakers provide the flexibility to create the perfect ambiance for your ride.

**Versatile and Easy Installation** - Designed with the adventurer in mind, these speaker pods are equipped with a universal cage-mount system that fits bars ranging from 1.5" to 2" in diameter—standard on most UTVs. The 360-degree rotational adjustment allows you to position the speakers exactly where you want them, ensuring optimal sound delivery regardless of the mounting location.

# SPV-65RGB-CAN
