

MantelMountPro

MAX1 Full Range Motion TV Mount

The revolutionary MAX1 offers unmatched positioning flexibility and max load capacity up to 90 lbs.

Offer your customers all the benefits of a traditional full-motion mount combined with up to 29" of independent vertical travel! The MAX1 offers our closest flush to wall distance in a non-recessed application that can position the back of the TV just 3" off the wall. MAX1's clearance requirements are simplified when mounting a TV above obstructions such as a fireplace mantel.

This innovation creates a new standard in the full range motion mount category, ensuring your TV is always at the perfect eye level and viewing angle. Plus with its ability to handle up to 90 lbs., the MantelMount MAX1 offers robust support for TV's up to 86".

KEY FEATURES INCLUDE

Innovative Movement Ability

- **Wall Slider:** Effortlessly drop your TV vertically without any horizontal travel for precise eye-level viewing.
- **Independent 22" extension:** MAX1 can extend up to 22" and swivel left or right up to 40°, independent of vertical position.
- **Up to 29" of vertical travel:** Independently lower the TV using a conveniently located handle.
- **Constant Tension Design:** Provides absolute stop-anywhere positioning.

Superior Stability and Design

- **Rock-solid stability:** MAX1 combines 3mm commercial-grade steel with a constant tension design, holding TV's securely in any position and eliminating the need for mechanical stops.
- **Slim and Sleek:** Despite its robust capabilities, the MAX1's slim profile allows TV's as close as 3" to the wall, rivaling the sleekness of traditional articulating mounts in non-recessed applications.

Simplifies Clearance Requirements

- **Minimal Clearance:** When mounting above obstructions, such as a fireplace mantel, MAX1 allows for clearances as close as 2" from bottom of the TV (or soundbar).

Enhanced User Experience

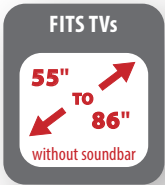

- **Fits in Tight Spaces:** MAX1's unique abilities make it perfect for set-and-forget positioning applications in compact spaces and unique AV setups in confined areas.
- **Integrated Features:** Comes with high temperature indicators, soundbar mounting brace, and cable routing clips for a clean organized look.
- **Expanding into Other Vertical Markets:** Education, Digital Signage, Conference Rooms, Hospitality and more. MAX1's its unique positioning abilities and user-friendly operation, excels beyond the traditional consumer AV market.

Better Together - Optional Accessories (Sold Separately)

- **SBK00:** The SBK00 Universal Sound Bar Adapter Kit is the premium choice for mounting the widest number of soundbars types on the market to any MantelMount pull down or motorized mount. MSRP \$79.99
- **GS60:** The GS60 Thin TV Gap Spacer stabilizes the back of thin TV's by providing the extra upper support for stepped back depth TV's. MSRP \$39.99

Lifetime limited consumer warranty included.

All necessary hardware is in the box.
