

MantelMountPro

MAX2 Motor Assisted Full Range Motion TV Mount

The revolutionary MAX2 adds unique motor-assisted functionality and additional max load capacity up to 150 lbs.

Offer your customers all the benefits of a traditional full-motion mount with the added capability of independent extension from the wall combined with up to 29" of motor-assisted vertical travel. The MAX2 offers our closest flush to wall distance in a non-recessed application that can position the back of the TV just 3" off the wall. MAX2 clearance requirements are also simplified when mounting a TV above obstructions such as a fireplace mantel.

This innovation creates a new standard in the full-range motion mount category, ensuring your TV is always at the perfect eye level and viewing angle with just the touch of a button. Plus, with its ability to handle TV's and soundbars up to 150 lbs., the MantelMount MAX2 offers robust support for even the largest screens.

KEY FEATURES INCLUDE

Innovative Movement Ability

- **Independent 22" extension:** MAX2 can extend up to 22" off the wall and swivel left or right up to 40° independent of vertical position.
- **Up to 29" of motor assisted vertical travel:** Automatically lower and raise the TV with one finger using a conveniently located toggle switch.
- **Constant Tension Design:** For absolute stop anywhere-positioning.

Superior Stability and Design

- **Rock-solid stability:** MAX2 combines 3mm commercial-grade steel with a constant tension design, holding TV's securely in any position and eliminating the need for mechanical stops.
- **Slim and Sleek:** Despite its robust capabilities, the MAX2 slim profile keeps TV's as close as 3" to the wall, rivaling the sleekness of traditional articulating mounts in non-recessed applications.

Simplifies Clearance Requirements

- **Minimal Clearance:** When mounting above obstructions, such as a fireplace mantel, MAX2 allows for clearances as close as 2" from bottom of the TV (or soundbar).

Enhanced User Experience

- **Fits in Tight Spaces:** MAX2's unique abilities make it perfect for set-and-forget positioning applications in compact spaces and unique AV setups in confined areas.
- **Expanding into Other Vertical Markets:** Education, Digital Signage, Conference Rooms, Hospitality and more. MAX2's unique positioning abilities and user-friendly operation, MAX2 excels beyond the traditional consumer AV market.
- **Integrated Features:** Comes with high temperature indicators, soundbar mounting brace and cable routing clips for a clean, organized look.

Better Together - Optional Accessories (Sold Separately)

- **SBK00:** The SBK00 Universal Sound Bar Adapter Kit is the premium choice for mounting the widest number of soundbars types on the market to any MantelMount mount. MSRP \$79.99
- **GS60:** The GS60 Thin TV Gap Spacer stabilizes the back of thin TV's by providing the extra upper support for stepped back depth TV's. MSRP \$39.99

Lifetime limited consumer warranty included.

All necessary hardware is in the box.

Warning: Not intended for outdoor use.
