

DM-65C-G

6.5" Component 2-Way Speaker Set

PRODUCT OVERVIEW

The Alpine DM-65C-G 6.5" Component Speaker Set offers a simple, affordable upgrade to your car's audio system, designed for those seeking better sound without a premium price tag. Ideal for everyday listening, this speaker set delivers a balanced audio experience at an entry-level price point.

PRODUCT FEATURES

Efficient Sound Performance – With a peak power of 200W and a sensitivity of 92dB, the DM-65C-G delivers reliable sound performance, perfect for casual listeners who want a straightforward improvement over factory-installed speakers.

Improved Listening Experience - The Tedoron tweeter diaphragm and Neodymium magnets ensure smooth highs and articulate vocals, delivering an improved listening experience that surpasses standard factory speakers. Tweeters include In-line filters for hassle-free installation.

Durable Build Quality - Featuring a rubber surround and injection-molded bass diaphragm, these speakers are built to last while providing consistent audio quality that won't break the bank. Grilles included.
