

ht 7120

The HT-7120 is the perfect bridge between state of the art technology and the ancient healing art of massage. What sets the HT-7120 apart from the competition? For starters, it has a rotating foot and calf massager with width control that massages both your calves and the bottoms of your feet. It also has lumbar heaters to warm lower back muscles. With luxurious leather upholstery, the HT-7120 will complement any decor.

features

ROTATING CALF/FOOT MASSAGING OTTOMAN FEATURES ADJUSTABLE WIDTH CONTROL

Two 15-minute programs offer gentle or vigorous Calf & Foot Massage. Rollers and massaging discs surround your feet and calves giving a squeeze and release massage that feels like several pairs of hands. Also features adjustable-width control for a customized fit.

MASSAGE COMFORT NUMBER TECHNOLOGY

Customization is at your fingertips. Advanced contour control allows you to seamlessly adjust massage comfort from gentle to intense without interrupting your massage session. Massage comfort number functions in all modes and can adjust back comfort even when massage is off.

LUMBAR HEATERS

Lumbar heaters gently warm lower back muscles, gradually reducing tightness and pain. Heat calms and soothes back muscles, preparing them for a more restorative massage and faster healing.

FULL BODY STRETCH MODE

The calf massage wells will gently hold your legs as the chair reclines to arch your back and engage a gentle body stretching program with an active massage of your lower back.

More Features For More Comfort
