20.0V=-1.5A 30.0W, 3.3V-11.0V=-3.0A 33.0W Max.

Weight:

44g (1.5 oz)

Dimensions:

31×32×34mm (1.22×1.26×1.34in)

Y-Cable

Input 1:

9V/2.2A

Input 2:

5V/3A

Output:

9V/2.2A ; 5V/3A

Weight:

95g

Length:

3100±5mm

Cable Diameter:

4±0.1mm

Material:

Silica gel

*Do not use the Y-Cable to power your laptop.

How to Use

1. To provide continuous power to the device, connect the end of the Y-cable that's further from the reserved port to the power adapter. Connect the end that's closer to the reserved port to the Insta360 Wave.
2. To connect the Insta360 Wave to a computer, use the reserved port.
