All Swiss Army watches are covered
by a 3-year warranty

SWISS ARMY 

This fall Victorinox Swiss Army introduces **Vivante**, a collection of seven models designed exclusively for women. With a full palette of vibrant “guilloché” dials that create a soleil effect, and beautiful, polished applied numbers, this collection captures the essence of the brand: legible yet sophisticated, sporty yet elegant.

For an added touch of elegance, the collection also offers models with dials in several hues of mother-of-pearl, and one that adds the sparkle of 48 full-diamonds on the bezel.

Designed with versatility and comfort in mind, **Vivante** is available with a soft, three-link satin and polished stainless steel bracelet or high-quality “croco-grain” leather straps in black or deep brown. A cabochon crown provides just the right finishing touch to this all occasion, 100 meter water resistant Swiss-made timepiece.
