

W-SB10V

"Wedg-E" 10" Bass Series Preloaded Vented Wedge Enclosure

PRODUCT OVERVIEW

Hold on to your lunch money! Alpine's new line of "Wedg-E" preloaded subwoofer wedge enclosures are ready to beat up the competition with deeper bass and higher output.

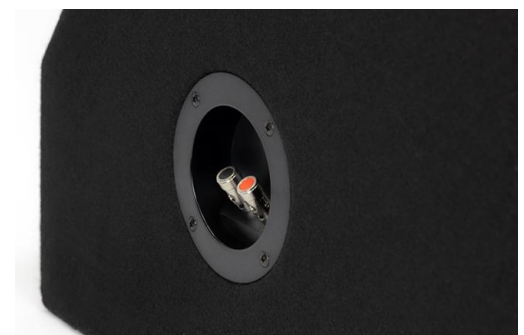

PRODUCT FEATURES

The Bully of Subwoofer Boxes – No competition here – Alpine's "Wedg-E" enclosures beat out the competition spec-by-spec, using the reputable Bass Series Subwoofer and an intentional box design that reaches high output and lower frequencies without fear of overdriving the subwoofer.

Efficient Use of Space – Designed in accordance with the OEM Seat Reference Point (SgRP95) spec, the "Wedg-E" enclosures align with the reclined angle of the rear seat backrest, ensuring efficient use of your rear cabin storage space.

Increased Bass Output – The angled, wedge-shaped enclosure avoids bass wave cancellation from parallel surfaces while the optimized box volume and low side port design help load the sound pressure more evenly (vs traditional side ports), reducing chuffing noise and creating a perceived louder output.

Optimized Enclosure Design – Who says you can't have it all? Using precise calculations, the "Wedg-E" defies logic with 35% lower box volume (vs the competition) and a precision-tune, curved port that maximizes air flow efficiency and output when music hits hardest.

W-SB10V

"Wedg-E" 10" Bass Series Preloaded Vented Wedge Enclosure

OVERVIEW FEATURES

- Preloaded with Alpine W10S4 10" Bass Series Subwoofer
- Powerful big box sound with wedge-style enclosure design for fitment flexibility
- Polypropylene and mica cone with poly-foam surround
- Optimized vented enclosure
- Sturdy MDF box construction with premium black carpet
- Embroidered Alpine logo
- Compatible with KTE-10PG Grille
- Recommended with Alpine's S2-A60M 600W Mono Amplifier

SYSTEM COMPONENTS

- (1) 10" Preloaded Wedge Enclosure

SYSTEM TECH SPECS

- **Enclosure dimensions:** 15.5" (W) x 18.25" (D) x 15.5" (H)
- **Enclosure type:** Vented
- **Weight:** 41 lbs (18.60 kg)
- **Driver:** 10" Bass Series Subwoofer, 4Ω single voice coil
- **Power handling:** 250W RMS / 750W Peak
- **Frequency response:** 24Hz-200Hz
- **Sensitivity:** 87dB
- **Vas (Box Volume):** ~28L
