

Used exclusively with the SPV-65RGB-CAN (sold separately)

PRODUCT OVERVIEW

Change the vibe of your drive with a push of a button using the KTE-RGB-KO RGB Controller, exclusively designed for the SPV-65RGB-CAN.

PRODUCT FEATURES

Designed for UTVS – The KTE-RGB-KO was designed to install onto the switch panels in most UTV applications, making it easy to integrate onto your dashboard, center console, or dash pocket.

Add Excitement to Your Drive – Use the KTE-RGB-KO to toggle between 12 static color options on your SPV-65RGB-CAN. Match your music or mood to one of 3 dynamic modes!

Complete Your System – The KTE-RGB-KO is designed to work exclusively with the SPV-65RGB-CAN as an easy way to control the color and display on the RGB cans.

OVERVIEW FEATURES

- **RGB control switch for the SPV-65RGB-CAN**
- **Made to fit the switch panel on most UTV applications**
