

144 SERIES | 1080p LCD FLAT PANEL HDTV

MODELS: LT-46144 | LT-52144

Official HDTV

LT-46144 Shown on Included Base
Cabinet Color: Platinum Black

More color, for a more colorful image. Mitsubishi is taking color to a new level with x.v.Color™ support and Mitsubishi's Full Spectrum Color™. x.v.Color™ is the new standard for HDTV and it enables 80% more color than standard HDTV! Mitsubishi's Full Spectrum Color™ results in 25% more color than standard LCD. Reds and yellows become more vivid and there are more available shades of green, cyan and blue resulting in a more vivid and more realistic image. Additional color features such as Color 4D Noise Reduction and PerfectColor™ allow for advanced color processing and adjustment. The result is breathtaking realism with vivid, yet natural Color Without Compromise.

Larger screen, not larger spaces. The 144 Series 46" and 52" 1080p LCD Flat Panel HDTVs feature Mitsubishi's Plush1080p® processing for unsurpassed detail in over two million pixels from every source. Mitsubishi's Smooth120Hz™ minimizes motion blur especially in fast moving action scenes. With its ultra thin frame, high quality hidden speakers and its ultra-compact design, the 144 Series lets you get a larger screen in less space than ever before! Go ahead and get into the action, immerse yourself.

Lots of connections, made easy. Mitsubishi leads the industry with three rear HDMI™ 1.3 inputs and two rear component inputs for maximum HD connectivity. A side component video input allows you to easily connect an HD game system or other HD component. Additionally, a USB input for up to 5 Mega Pixel pictures connects you to large screen digital photo viewing. And Mitsubishi's Easy Connect™ makes set-up and operation so easy.

Get the Perfect Picture Every Time

- 1080p LCD Flat Panel Display
- Full Spectrum Color™
- x.v.Color™
- Deep Color
- High Contrast Picture
