Designed with an open, relaxed profile, the Cashiers Open Nightstand brings a fresh sense of versatility to the bedside. Its combination of natural wood, marble, and aged brass creates a layered look with plenty of character, while the open center keeps the silhouette visually light and provides convenient space for everyday essentials. A marble stone top introduces natural variations of cream, beige, brown, and gray, making each nightstand unique. A gallery rail frames the top with subtle architectural interest, while European Oak veneers in the light Almond finish reveal the wood's natural grain, knots, and subtle texture. Textured aged brass bar hardware and a coordinating metal base add warmth and contrast to the lighter wood tones. Two drawers provide convenient concealed storage, while the open space between the upper and lower drawers offers an accessible place for books, baskets, or decorative accents. The combination of open and closed storage makes it easy to keep frequently used items close at hand while maintaining an uncluttered bedside. An integrated charging station keeps personal devices powered and within easy reach, adding practical functionality for modern living. With its mix of natural materials, flexible storage, and open design, the Cashiers Open Nightstand offers a relaxed and distinctive bedside solution with the thoughtful character of the collection.
