Descaler

Built-in water filter (included)

How Presrv™ Gourmet Clear Ice Machine Stands Out:

Intuitive Cleaning Process
The guided cleaning process walks you through every step and pairs perfectly with Zephyr's own descaling solution.

Active Leak Protection
The built-in leak detection system can sense an internal water leak and shuts off the internal water valve automatically.

Built-In Drain Pump or Gravity Drain
Every unit ships ready for both drain pump and gravity drain installations right out of the box.

Built-In Water Filter
Integrated filtration works quietly behind the scenes, improving taste, reducing odor, and minimizing scale buildup.

Interactive TFT Touch Controls
The sleek TFT Touch Controls showcase cleaning guides, maintenance reminders, and diagnostics all in one, at-a-glance display.

INTRODUCING THE ZEPHYR PRESRV GOURMET CLEAR ICE MACHINE

ZEPHYR
GOURMET
CLEAR ICE
MACHINE

Built-In Drain Pump or Gravity Drain

No tradeoffs, no special-ordering, no headaches—every unit ships ready for both pump and gravity drain installations right out of the box. Wherever your space calls for it, this machine is already one step ahead.

Active Leak Protection

Always on and always watching, the built-in leak detection system is the kind of dependable you can actually count on. A built-in sensor continuously monitors for internal water leaks—helping safeguard your home from potential damage.

Interactive TFT Touch Controls

The sleek TFT touch interface brings everything you need to the surface—cleaning guides, maintenance reminders, and diagnostics all in one, at-a-glance display. It's the kind of thoughtful design that makes a sophisticated machine feel completely effortless to own.

Introducing the Presrv™ Gourmet Clear Ice Machine

Meet your new favorite entertaining accessory, the Presrv™ Gourmet Clear Ice Machine. Designed for ease and style, this is sophisticated, self-sufficient, and endlessly satisfying: this is ice, upgraded.

8-Color LED Lighting

Eight customizable lighting colors—from cool white to violet—let you set the mood as effortlessly as you make the ice. Functional visibility and personal expression, all in one beautifully lit ice bin.

Gourmet Clear Ice

Crystal-clear, slow-melting cubes are the quiet upgrade your home bar didn't know it was missing. Engineered to chill longer with minimal dilution, they preserve every note of flavor in the glass—exactly the way your drink was meant to be enjoyed.

316-Grade Stainless Steel Ice Scoop

Most scoops are plastic afterthoughts, but this one is precision-crafted from 316-grade stainless steel—food-safe, corrosion-resistant, and built to thrive in wet, high-humidity environments for the long haul. It's a small detail that says a lot about the whole package.

Intuitive Cleaning Process

Keeping things fresh has never been this straightforward—the guided cleaning process walks you through every step and pairs perfectly with Zephyr's own descaling solution for a maintenance routine that is super manageable.

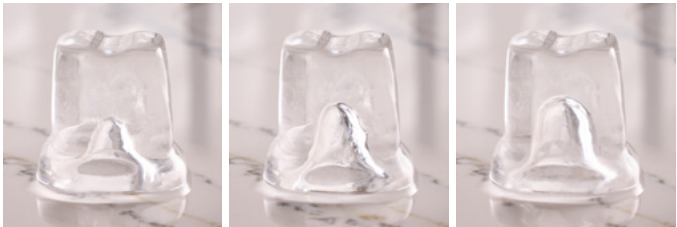

Panel Ready

Whether you go with Zephyr's stainless steel overlay or source your own wood panel, this machine blends beautifully into your kitchen's aesthetic. Your space, your vision—this one plays well with others.

Gourmet Clear Ice in 3 Thicknesses

Solid, semi-solid, or hollow—your perfect cube is already waiting. Three distinct thicknesses mean you can match the ice to the drink, whether that's a slow-sipping bourbon or a tall, sparkling refresher.
