ZEPHYR

Presrv™ Refrigeration

design credit: raili clasen
photo credit: david tsay

Refrigerators and beverage coolers for every party, every family, every entertaining space.

Presrv™ Luxury

Not only do we bring remarkable functionality to your kitchen and outdoor spaces, we provide style and the very highest quality, from elevated design touches to the newest technology. Every Presrv™ product is beautiful to look at, and also makes cooking and hosting a pleasure.

Presrv™ Entertaining

Whether you want to store wines and other beverages at specific temperatures, keep produce and drinks fresh and close at hand, have everyone's favorite brews on tap, or simply love having the very best refrigeration wherever you entertain, there is a Presrv™ product perfect for you.

PreciseTemp™

Multiple internal sensors help maintain accurate temperatures and increase overall performance.

Active Cooling Technology

An on-board computer controls an active cooling fan to provide temperature stability and even cooling.

Vibration Dampening System

Enhanced technology ensures noise and vibration is reduced to minimize wine disturbance.

Zephyr Warranty

With service at the forefront, we back our products with a generous 2-year parts and labor warranty along with a 5-year warranty on the compressor.

Single Zone Beverage Cooler
PRB15C01CG

*An inverter compressor uses a BLDC motor to achieve lower temperatures while using less energy and performing more quietly than a fixed speed compressor

Preset Temperature Modes

Custom-set temps for everything you need to chill, from wine (50°F) to beverages (34°F) to produce (39°F).

Quick Chill

When you need it chilled (like, yesterday), Quick Chill temporarily lowers its temp to 33°F so you'll have food and cold drinks on hand even sooner.

3-Color LED Lighting

Exclusive, in-drawer lighting not only helps you see where everything is, it's easy to choose between three color options.

Optional Drawer Pan Kit

Have an organized prep station at the ready for entertaining with five perfectly sized stainless steel pans— store veggies, condiments, and more for super easy access. Perfect for grilling, parfaits and sundaes, cocktails, salads, and more.

Full-Extension, Soft-Close Drawers

No more apples rolling around where you can't see them—full-extension drawers mean you can find and access it all, all the time.

It's the little things—these smooth-gliding drawers open and close with silky precision, and quietly, too—making your time in the kitchen feel just a little bit smoother.

Top drawer entertaining

Configure preset temperature modes, Quick Chill, 3-Color LED lighting, and drawer interiors to your liking for a fully customized entertaining hub.

Combined kegs + beverage storage is the absolute life of the party

Style On Tap
This versatile, industry-first hybrid kegerator features multiple configurations that allow you to tailor your cold beverage offerings with single, double, and triple tap options, elevating any entertainment opportunity. And both indoor and outdoor models easily convert to a beverage cooler when a keg is not installed.

Whether entertaining indoors or out, installing the Kegerator & Beverage Cooler is a breeze, and the innovative Beer Line Cooling System ensures the first pour is always as cool as the last.

Beer Line Cooling System
Blows cool air onto the beer line to reduce foam and keep beer cool from start to finish.

Built-In Installation Kit
The first kegerator with a built-in install kit to simplify under-counter installation.
