

Ultra-portable, ultra-sleek, ultra-powerful

ULTRA-PORTABLE AND DURABLE

The luxuriously sleek and ultra-portable VAIO® TZ notebook boasts an incredibly small and lightweight form-factor that features an especially robust carbon-fiber casing for enhanced durability. This best-in-class PC weighs only 2.7 lbs¹⁵, is less than 1" thin³ and features an incredible 4.5 to 8.5 hours of standard battery life⁸.

LONG BATTERY LIFE

Sony's innovative power-saving technology combined with Intel® Centrino® Duo processor technology efficiently manages power resources to deliver an amazing 4.5 to 8.5 hours of standard battery life⁸. And for those times when you'll be on the go all day, rely on the optional large capacity battery for 7.0 to 13.0 hours of power⁸ to get you through.

EXCEPTIONAL LCD

The VAIO® TZ notebook features an 11.1"¹² WXGA widescreen display with Sony's original XBRITE-HiColor™ LCD technology with white LED backlight. Sony's innovative backlight technology offers lower power consumption for improved battery life and provides incredibly high brightness levels, amplifying colors and creating clear, crisp pictures that truly "pop" off the LCD. The result: an amazing 72% color saturation for deeper blacks, brighter whites, true-to-life color and razor-sharp detail. And, with the anti-reflective coating to minimize reflection while providing a wide viewing angle, you'll enjoy a beautifully clear image from almost any angle. It's the ideal way to present your work or watch a DVD when you're on the go.

VISUAL COMMUNICATION

Backed by Sony's engineering expertise in miniaturization, the VAIO® TZ notebook features a wafer-like MOTION EYE® camera and microphone built into its 4.7mm razor-thin LCD panel. Stay connected to colleagues, friends and family with real-time video conferencing whether you're in the office, at home or on the go¹⁶ with the TZ, a true marvel of technology.

INNOVATIVE KEYBOARD DESIGN

The VAIO® TZ notebook features a thoughtfully redesigned keyboard that showcases an extreme attention to detail. Designed for ease of use and a smart, sophisticated look, the individual keys are slightly raised above an attractive piano-black bezel layer producing a user-friendly touch and feel to the keyboard that creates an improved typing experience. In addition, an extra support layer has been added below the bezel to increase the structural integrity of the keyboard and add stability to the keys, giving them an unwavering up-down motion and making for quieter typing. Details like these not only enhance the look and feel of the TZ notebook, but also reveal the design intelligence and innovation that only Sony can offer.

At 2.7 lbs¹⁵ (with standard battery) with 4.5 to 8.5 hours of standard battery life⁸ and durable carbon-fiber casing, the VAIO® TZ notebook is built for ultra-portable performance. And with an 11.1"¹² display with XBRITE-HiColor™ LCD technology, an Intel® Core™ 2 Duo processor and 802.11 a/b/g/n⁴ wireless LAN technology you'll be able to stay connected and productive wherever you find yourself.
