Nikon COOLPIX L18

Key Features

- **8.0 effective megapixels** for stunning prints as large as 16 x 20 inches
- **3x Optical Zoom-NIKKOR Glass Lens** for incredibly sharp, clear images
- **Huge, bright 3.0-inch LCD** for easy composing and sharing of your pictures
- **Anti-Shake AE**
- **Easy Auto Mode**
- **ISO 1600 Capability**
- **AA-size battery compatible**
- **Face Zoom-in** – zooms right in on the subject's face during playback
- **Nikon In-Camera Innovations**
 - **In-Camera Red-Eye Fix™** automatically fixes most instances of red-eye in the camera. You may never see red-eye again
 - **Improved Face-Priority AF** Nikon's face-finding technology that automatically focuses on faces faster than ever
 - **D-Lighting** rescues dark or backlit images by improving brightness and detail where needed

8.0 effective megapixel clarity

An impressively high megapixel count delivers pictures with true-to-life color and pleasing details. What's more, it means images can be significantly enlarged, and still look absolutely stunning.

New Anti-shake AE

Anti-shake AE helps you take great pictures free of complicated operation by automatically increasing shutter speed and raising the ISO setting to compensate for camera shake and subject movement.

Expansive 3.0-inch LCD monitor

A huge, bright LCD monitor makes it a cinch to compose shots and play them back anywhere. High contrast ensures clear viewing, even in direct sunlight.

AA-size batteries for carefree shooting anywhere

Compatibility with AA-size batteries, which are widely available around the world, means carefree shooting virtually anywhere without worrying about recharging or running out of power.

Easy auto mode

Easy auto mode makes photography even easier by taking control of settings, so you simply turn on the camera and shoot without worrying.

In-Camera Premium Features!

In-Camera Red-Eye Fix™

This in-camera feature automatically fixes most typical occurrences of red-eye.

D-Lighting

Compensates for underexposed images or insufficient flash by automatically adding light and detail to selected shots where needed, without affecting properly exposed areas.

Face-Priority AF

Automatically finds and focuses on up to 5 faces to ensure superb portraits with clear, crisp focus.

Simply better
portraits
