Timeless transitional styling meets advanced motion comfort in the Kaufman Swivel Power Recliner. Its supportive bustle style back and distinctive key arms create a tailored silhouette, while smooth swivel motion and power functionality bring effortless versatility to everyday relaxation. Brown Semi Aniline Top Grain Leather gives the recliner a warm, sophisticated appearance while showcasing the natural character of the leather. The rich coloration complements the classic proportions and tailored details, creating an inviting look that works beautifully across a range of interiors. Power zero gravity recline allows the chair to move into a deeply relaxing position designed to provide comfortable, balanced support. An independently adjustable power pop up headrest can be raised when additional head and neck support is desired, then lowered to maintain the recliner's streamlined profile when not in use. Smooth swivel motion adds flexibility, making it easy to turn toward conversation, entertainment, or another area of the room without leaving the chair. Combining rich leather, timeless transitional design, and customizable power comfort, the Kaufman Swivel Power Recliner creates an inviting destination for relaxing at home.
