Classic tailoring and modern motion come together in the Kaufman Swivel Power Recliner, creating an inviting balance of timeless style and personalized comfort. A supportive bustle style back and distinctive key arms shape its transitional silhouette, while power functionality and swivel motion make relaxing feel effortless. Dark brown Semi Aniline Top Grain Leather brings depth and warmth to the design while showcasing the natural character of the leather. The deep coloration enhances the recliner's tailored appearance and gives it a versatile, established quality that complements both traditional and updated interiors. Power zero gravity recline allows the chair to transition into a deeply relaxing position with balanced, supportive comfort. An independently adjustable power pop up headrest provides added head and neck support when desired and can be lowered when not in use to maintain a cleaner profile. Smooth swivel motion adds another layer of flexibility, allowing the chair to turn easily toward conversation, entertainment, or different areas of the room. With its rich leather upholstery, transitional styling, and advanced power features, the Kaufman Swivel Power Recliner offers a sophisticated approach to everyday relaxation.
